Re. section II.1.8:

The tender is divided into four lots. These lots are to be regarded as separate framework agreements with each one operator and this tender procedure should therefore in principle be seen as four separate tender procedures. Thus, DALO reserves the right to e.g. terminate the tender procedure with respect to one lot, but continue the tender procedure with respect to the other lot. It is possible for the tenderers to submit tenders for more than one lot.

Re. section III.2:

According to directive 2004/18, art. 47(2) and art. 48(3) a candidate may rely on the economic, financial and/ or technical capacity of other entities, regardless of the legal nature of the links with the entities. If a candidate wants to rely on other entities and wishes that the capacity of other entities is included when establishing the suitability of the candidate, the candidate must prove that the other entities will and shall

put the relevant resources at the disposal of the candidate. For instance this is fulfilled if the candidate submits a co-operation agreement clearly (e.g. by using the form mentioned below) stating that the candidate has the relevant resources at its disposal. Conversely, it is not sufficient to submit a declaration stating that the candidate is entitled to sell products on behalf of another entity if the candidate wishes to rely on the capacity of this other entity.

Re. section IV.3.4:

The tender should preferably be submitted in 3 paper copies and 1 electronic copy on a USB-stick or equivalent medium, cf. Instructions to Tenderers. The tender shall be delivered to the contact point in section I.1.

The tender must not be forwarded by e-mail.
