## **Short description of the contract or purchase(s)**

Bioforsk is a research institute with expertise at a high international level within agriculture, food production, plant health, environment and resource management.

Bioforsk Nord Bodø (BNB) grows marine alga as its sphere of work. BNB shall now construct new experiment facilities in the University of Nordland's premises in 'Styrhuset' in Mørkvedbukta, Bodø. Seawater that is collected from a depth of 250m in the fjord outside our premises in Mørkvedbukta shall be used in the experiment facilities. Before this water can be used we need a water treatment plant in order to ensure that the water fulfils our requirements for water amount, water quality and temperature. We would like a total tender for engineering design services and the delivery of a water treatment system based on the minimum requirements that are in the specifications.

The awarding authority is using Merzell Sourcing Service for this tender process.
