Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The procurement falls outside the scope of application of the directive

Explanation:

A procurement without call for tenders has been made. C.f. the PPR § 13-4 letter a, c.f. the PPR § 13-3 letter e. The reason for choosing the exception procedure in the Regulations is that there was an urgent need for establishing a system for summons/time registration and vaccination. Information related to vaccine availability and distribution of vaccines for Covid-19 has been limited and uncertain. The Agency for Health received information in January 2021 about major changes in access to the vaccines, both in terms of increased and reduced access. Originally, the Agency intended to develop its own system for the vaccination work, but new information about the uncertainty in access to vaccines entailed a need to establish a system more quickly. The time aspect related to danger to life and health showed us that it was not possible to follow the rules for accelerated tender procedures in the Public Procurement Regulations or possible to call for tenders with negotiation without a prior notice.
