**Section II: Object of the contract**

---

**II.1. Description****II.1.1. Title attributed to the contract by the contracting authority**

Hub network — Terminal and pipeline network- 'Green network'.

**II.1.2. Type of contract and place of performance or delivery**

Works

Design and execution

Main site or place of performance: Bergen.

NUTS code NO051 Hordaland

### **II.1.3. Information about a framework agreement or a dynamic purchasing system**

The notice involves a public contract

### **II.1.4. Information about framework agreement**

#### **II.1.5. Short description of the contract or purchase(s)**

The procurement is for the construction of a hub network and terminal, carried out as a turnkey contract as well as an operation and maintenance contract:

The contract work comprises engineering design services, delivery and assembly of two complete hub networks, which the builder will decide to develop within a limited geographical area, as well as a complete joint double terminal and all the control units that have communication interface between the main network and the sub networks (of which the latter is not included in the contract).

The provisional estimated extent is 12 000 residential units and 10 km pipe and 315 downchutes.

The erection of the building where the terminal shall be assembled will be put out to competition as a separate contract and is not included in this procurement. The necessary excavation work will be carried out by contractors contracted by the builder and is also not included in the contract work.

The delivery and assembly of a pipeline network, downchutes, storage parts and control units shall be in accordance with call-offs, cf. the description of the call-off mechanism and the work procedure in the tender documentation.

The contract work also includes responsibility for the operation and maintenance of the main network, including the terminal — the entire delivery, up until it is handed over, as well as existing installations, cf. the description in tender documentation.

The development period will stretch over time and will be carried out in stages. However the aim is that the terminal shall be completed and commissioned in the 4th quarter of 2017.

The provisional development period is estimated to 10 years, but this is uncertain.

#### **II.1.6. CPV code(s)**

45231112 Installation of pipe system, 44160000 Pipeline, piping, pipes, casing, tubing and related items, 44161000 Pipelines, 44162000 Piping, 45231110 Pipelaying construction work, 71322200 Pipeline-design services

#### **II.1.7. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

#### **II.1.8. Lots**

This contract is divided into lots: no

#### **II.1.9. Information about variants**

Variants will be accepted: no

## **II.2. Scope of the procurement**

### **II.2.1. Total quantity or scope**

The hub network and the terminal shall handle waste from a number of residential units, estimated to 12 000. The estimated number of km is 10 km and the number of downchutes is 315.

## **II.2.2. Information about options**

Options: yes

Description of options: 1) The contracting authority will have the unilateral right to extend the operation and maintenance contract for a further 2 years after hand over, i.e. for 2 years after the estimated development period of 10 years.

2) The contracting authority will have the unilateral right to order the execution of a smaller network in other parts of Bergen municipality and in BIR's other owner municipalities at any one time. The number of terminals is limited to a maximum of 10, of which 8 shall be able to serve up to 1 000 residential units and the other 2 shall serve 3 000 and 5 000 residential units respectively.

3) In addition there are options for ordering public downchutes/network baskets, charcoal filter installations and fire alarms in downchutes. These are further described in the tender documentation and the estimated amounts are in the price form.

4) The contracting authority has general amendment competence in accordance with NS 8407 point 31, where the limit is raised from 15 % to 25 % net supplement to the contract sum.

## **II.2.3. Information about renewals**

This contract is subject to renewal: yes

## **II.3. Duration of the contract or time limit for completion**

Duration in months: 120 (from the award of the contract)

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions related to the contract**

#### **III.1.1. Deposits and guarantees required**

The turnkey contractor shall provide security in accordance with NS 8407 point 7 (10 % of the contract sum).

#### **III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them**

According to NS 8407.

#### **III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded**

#### **III.1.4. Contract performance conditions**

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: There are wages and working condition requirements in accordance with the regulations on wages and working conditions in public contracts, see the tender documentation C1 point 8.2.4 and C2 point 6.2, where there are also administrative provisions and sanctions for ensuring compliance.

### **III.2. Conditions for participation**

#### **III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions: Norwegian companies: Company registration certificate. Foreign companies: Verification that the company is registered in a trade or business register as prescribed by the law of the country where the tenderer is established.

#### **III.2.2. Economic and financial ability**

List and brief description of conditions: The tenderer's annual accounts including notes with the board's and auditor's reports for 2014 and 2015.

In addition to the documentation that the tenderer has submitted, the contracting authority can obtain credit information and emphasise this.

Minimum level(s) of standards possibly required: Tenderers shall have satisfactory finances that will enable them to fulfil the contract.

### **III.2.3. Technical and professional ability**

List and brief description of conditions:

- (1) The tenderer's relevant reference projects in the last 10 years.
- (2) Description of the company's procedures for quality management, with emphasis on quality assurance, resource management, management responsibility, manufacturing process and continuous analysis and improvement, or an ISO 9001:2015 certificate.
- (3) Total overview of the turnkey contractor's manpower.
- (4) Staffing for this assignment (organisation plan) with names and CVs of key person who shall carry out the assignment, both the development and the operation and maintenance.

Minimum level(s) of standards possibly required:

(1) Requirements for experience:

1.1. Tenderers shall have experience with assignments that included engineering design, delivery and assembly of stationary hub suction facilities with a minimum of 2 fractions and where

the contract value exceeded 9 000 000 NOK.

1.2 Tenderers shall have experience with the operation and service of this type of facility for a minimum period of 5 years.

(2) The tenderer is required to have a good and well-functioning quality assurance system for the services that shall be delivered.

(3) The offered organisation and personnel shall have satisfactory competence and the ability to fulfil the contract.

### **III.2.4. Information about reserved contracts**

#### **III.3. Conditions specific to services contracts**

##### **III.3.1. Information about a particular profession**

Execution of the service is reserved to a particular profession: no

##### **III.3.2. Information about staff responsible for the performance of the contract**

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: yes

## **Section IV: Procedure**

---

### **IV.1. Type of procedure**

#### **IV.1.1. Type of procedure**

Open

#### **IV.1.2. Information about the limits on the number of candidates to be invited**

#### **IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue**

## **IV.2. Award criteria**

### **IV.2.1. Award criteria**

Lowest price

### **IV.2.2. Information about electronic auction**

An electronic auction will be used: no

## **IV.3. Administrative information**

### **IV.3.1. File reference number attributed by the contracting authority**

### **IV.3.2. Previous publication concerning this procedure**

no

### **IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document**

Payable documents: no

### **IV.3.4. Time limit for receipt of tenders or requests to participate**

5.9.2016 - 12:00

### **IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

### **IV.3.6. Languages in which tenders or requests to participate may be submitted**

Other: Norwegian.

### **IV.3.7. Minimum time frame during which the tenderer must maintain the tender**

Duration in days: 090 (from the date stated for receipt of tender)

### **IV.3.8. Conditions for opening of tenders**

Date: 5.9.2016 - 13:00

Persons authorised to be present at the opening of tenders: no

## **Section VI: Complementary information**

---

### **VI.1. Information about recurrence**

This is a recurrent procurement: no

### **VI.2. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

### **VI.3. Additional information**

### **VI.4. Procedures for review**

#### **VI.4.1. Review body**

#### **VI.4.2. Review procedure**

#### **VI.4.3. Service from which information about the review procedure may be obtained**

### **VI.5. Date of dispatch of this notice**

6.7.2016
