I.6. Main activity

Electricity

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Framework Agreement Soil Investigation - Offshore

II.1.2. Main CPV code

76320000 Offshore drilling services

II.1.3. Type of contract

Services

II.1.4. Short description

On the basis of legal foundations, TenneT has had the mandate to establish and operate the grid connection for offshore wind farms in its transmission grid area in Germany since December 2016.

To ensure this mandate and security of supply, TenneT builds and operates offshore converter stations in the German Bight of the North Sea.

Due to the political and social consensus for an accelerated expansion of offshore wind energy use, numerous new offshore converter substations will have to be built in the future. In the course of tendering and planning the HVDC platforms, information about the subsoil are

required as a basis for planning. For this purpose, geophysical and geotechnical subsoil investigations (in short: INVESTIGATION) must be carried out.

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: DE Deutschland

II.2.4. Description of the procurement

On the basis of legal foundations, TenneT has had the mandate to establish and operate the grid connection for offshore wind farms in its transmission grid area in Germany since December 2016.

To ensure this mandate and security of supply, TenneT builds and operates offshore converter stations in the German Bight of the North Sea.

Due to the political and social consensus for an accelerated expansion of offshore wind energy use, numerous new offshore converter substations will have to be built in the future. In the course of tendering and planning the HVDC platforms, information about the subsoil are required as a basis for planning. For this purpose, geophysical and geotechnical subsoil investigations (in short: INVESTIGATION) must be carried out.
