**I.4. Type of the contracting authority**

Regional or local authority

**I.5. Main activity**

General public services

**Section II: Object**

---

**II.1. Scope of the procurement****II.1.1. Title**

Renovation of Alfaset Crematorium

**II.1.2. Main CPV code**

45215300 Construction work for crematoriums

**II.1.3. Type of contract**

Works

#### **II.1.4. Short description**

The crematorium at Alfaset was constructed in 2009. The crematorium does not have satisfactory capacity for an increasing number of cremations. In addition it does not provide an optimum working environment nor fulfil government environmental emission requirements. The site has 4 crematorium ovens. After 10 years of operation, renovation is now required at the site. The complete flue gas system, including flue gas cooler, fabric filters and filters of carbon bed, id-fans and channels must be replaced with a new complete and separate flue gas cooling and cleaning line for each of the four crematoriums. The crematorium's functionality still works after 10 years of operation, but the fireproof lining must be replaced and is part of the renovation. The coffin insertion systems are in good condition, but the hydraulics (pump and valve system) must be replaced with 4 new independent systems.

#### **II.1.5. Estimated total value**

Value excluding VAT: 84 000 000,00 NOK

#### **II.1.6. Information about lots**

This contract is divided into lots: no

### **II.2. Description**

#### **II.2.2. Additional CPV code(s)**

42350000 Cremators

#### **II.2.3. Place of performance**

NUTS code: NO01 Oslo og Akershus

NUTS code: NO Norge

#### **II.2.4. Description of the procurement**

The crematorium at Alfaset was constructed in 2009. The crematorium does not have satisfactory capacity for an increasing number of cremations. In addition it does not provide an optimum working environment nor fulfil government environmental emission requirements. The site has 4 crematorium ovens. After 10 years of operation, renovation is now required at the site. The complete flue gas system, including flue gas cooler, fabric filters and filters of carbon bed, id-fans and channels must be replaced with a new complete and separate flue gas cooling and cleaning line for each of the four crematoriums. The crematorium's functionality still works after 10 years of operation, but the fireproof lining must be replaced and is part of the renovation. The coffin insertion systems are in good condition, but the hydraulics (pump and valve system) must be replaced with 4 new independent systems.

#### **II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

#### **II.2.6. Estimated value**

#### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months: 11

This contract is subject to renewal: no

#### **II.2.9. Information about the limits on the number of candidates to be invited**

Envisaged minimum number: 3 Maximum number: 5 Objective criteria for choosing the limited number of candidates:

After reviewing the requests for participation in the contest, the contracting authority will invite the three to five tenderers that best meet the qualification requirement 'experience from equivalent assignments', to submit a tender.

#### **II.2.10. Information about variants**

Variants will be accepted: no

#### **II.2.11. Information about options**

Options: yes

Description of options:

The contract includes a service contract during the guarantee period, and an option for a service contract after the guarantee period has expired.

#### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

#### **II.2.14. Additional information**

### **Section III: Legal, economic, financial and technical information**

---

#### **III.1. Conditions for participation**

##### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Requirement: tenderers must be a legally established company.

Documentation: Norwegian companies: Certificate of Business Registration

Foreign companies: proof that the company is registered in a trade or business register as prescribed by the law of the country where the company is established.

##### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Requirement: the tenderer must have the economic capacity to implement the assignment.

Documentation: the last annual accounts. The contracting authority reserves the right to obtain a credit assessment itself.

##### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

Requirement 1: tenderers must have implemented environmental management measures.

This means that the tenderer must have established methods for working actively and systematically with reducing negative environmental impact from the tenderer activities related to the implementation of this contract.

Documentation: a description of the tenderer's environmental management measures. If a tenderer is certified, it is sufficient to attach a copy of a certificate issued by independent bodies, which confirms compliance with certain environmental management standards.

Requirement 2: tenderers must have a quality assurance system suitable for the delivery.

Documentation: documentation of the tenderer's quality assurance system.

If the tenderer is certified, it is sufficient to enclose copies of certificates issued by independent bodies. If a tenderer is not certified, it is sufficient to attach the table of contents for the quality assurance system.

Requirement 3: good experience is required from equivalent assignments.

Equivalent assignments mean: Renovation of crematoriums with an equivalent size and scope as Alfaset, as well as experience with relaying brick ovens.

Documentation: an overview of the tenderer's five most important, relevant projects in the last 5 years.

The overview shall state:

- the project's value;
- contract form;
- start-up and completion of the project;
- the contracting authority/builder (title, name, telephone and email of the contracting authority's contact person);
- brief, written description of the project, please add a link to the project if it is presented on the internet.

Requirement 4: tenderers must have sufficient technical and professional qualifications to fulfil the contract. It is important that the tenderer has service and maintenance resources in Norway.

Documentation: A description of the technical personnel or technical units that the tenderer has at its disposal to fulfil the contract. CVs are not to be submitted for this requirement.

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Competitive procedure with negotiation

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

#### **IV.1.4. Information about reduction of the number of solutions or tenders during negotiation or dialogue**

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated

#### **IV.1.5. Information about negotiation**

#### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

### **IV.2. Administrative information**

#### **IV.2.2. Time limit for receipt of tenders or requests to participate**

Date: 22/06/2020 Local time: 10:00

#### **IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

#### **IV.2.4. Languages in which tenders or requests to participate may be submitted**

Danish, English, Norwegian, Northern Sami

## **Section VI: Complementary information**

---
