Legal type of the buyer: Central government authority

Activity of the contracting authority: General public services

### 2. Procedure

---

#### 2.1. Procedure

Title: The supply and commissioning of an offshore eVTOL drone and an offshore drone docking station

Description: The present contract concerns a mixed contract for supplies and services divided into two lots. Lot 1 relates to an offshore-deployable eVTOL (Electric Vertical Take-Off and Landing) drone. Lot 2 relates to an offshore-deployable drone docking station.

Procedure identifier: cad652c7-8161-4dc4-a328-76f9f8bc7629

Internal identifier: DGEM/MM/WB/26016

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: yes

Justification for the accelerated procedure: In accordance with Article 38(3) and Article 37(4) of the Public Procurement Act of 17 June 2016, the contracting authority is applying shortened submission deadlines. This shortening is justified by the need to carry out the contract within the time limits required by the Recovery and Resilience Facility (RRF). The expenditure under this contract forms part of the RRF investment programme “Marine Nature Restoration Programme”, which is subject to strict implementation deadlines as set out in the Belgian Recovery and Resilience Plan and the associated European funding conditions. To ensure that the investments are implemented within the set milestones and deadlines of the RRF programme, it is necessary for the procurement procedure to be organised within a shortened timeframe. The shortened deadlines will enable the contract to be awarded in good time, and the delivery, commissioning and operational deployment of the systems to be completed within the required programme deadlines, whilst meeting the obligations arising from the European funding.
