Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

Conditions of the Commission's service contracts. Terms of payment are stated in the specifications.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

No specific legal form is required. However, each service provider will be required to become jointly and severally responsible under the contract.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Tenderers shall be excluded from participation in this procurement procedure if:

- a) they are bankrupt or being wound up, are having their affairs administered by the courts, have entered into an arrangement with creditors, have suspended business activities, are the subject of proceedings concerning those matters, or are in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- b) they have been convicted of an offence concerning their professional conduct by a judgement which has the force of 'res judicata';
- c) they have been guilty of grave professional misconduct proven by any means which the contracting authority can justify;
- d) they have not fulfilled obligations relating to the payment of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which they are established or with those of the country of the contracting authority or those of the country where the contract is to be performed;
- e) they have been the subject of a judgement which has the force of 'res judicata' for fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Union's financial interests;
- f) they have been the subject of an administrative penalty for being guilty of misrepresentation in supplying the information required by the contracting authority as a condition of participation in the procurement procedure or failing to supply information, or being declared to be in serious breach of their obligation under contract covered by the budget.

Contracts may not be awarded to tenderers who, during the procurement procedure:

- (a) are subject to a conflict of interest;
- (b) are guilty of misrepresentation in supplying the information required by the contracting authority as a condition of participation in the contract procedure or fail to supply this information;
- (c) find themselves in one of the situations of exclusion, referred to at the beginning of point III. 2.1 (letters (a) to (f)).

Tenderers must provide a declaration on honour that they are not in one of the abovementioned situations.

Only the tenderer to whom the contract is to be awarded shall be required to submit, before signing the contract, evidence confirming his declaration on honour, by providing:

- for points (a), (b) or (e): a recent extract from the judicial record or, failing that, an equivalent document recently issued by a judicial or administrative authority in the country of

origin or provenance showing that those requirements are satisfied,
— for point (d), a recent certificate issued by the competent authority of the State concerned. Where no such documents or certificates are issued in the country concerned, they may be replaced by a sworn or, failing that, a solemn statement made by the interested party before a judicial or administrative authority, a notary or a qualified professional body in his country of origin or provenance.

Depending on the national legislation of the country in which the tenderer or candidate is established, the documents referred to in the above 2 paragraphs shall relate to legal persons and/or natural persons including, where considered necessary by the contracting authority, company directors or any person with powers of representation, decision-making or control in relation to the candidate or tenderer.

Wherever the tenderer is a consortium of firms or groups of service providers, the abovementioned information must be provided for each member or group.

However, the contracting authority may waive the obligation for a candidate or tenderer to submit documentary evidence if such evidence has already been submitted for another procurement procedure and provided the documents were issued not more than 1 year earlier and are still valid. In such cases, the candidate or tenderer must declare on his honour that the documentary evidence has already been provided in a previous procurement procedure, provide reference to that procedure, and confirm that there has been no change in the situation. The abovementioned information must be included in the tender specifications.

Please refer to the e-Certis website, which provides the possibility of determining the exact certificates and attestations required: <http://ec.europa.eu/markt/ecertis/login.do>

III.2.2. Economic and financial ability

List and brief description of conditions: The tenderer shall submit evidence of:

- sufficient economic and financial capacity to guarantee continuous and satisfactory performance throughout the envisaged lifetime of the contract,
- reliability of the mitigating measures presented to cover possible deficiencies in the evidence presented for the above criteria.

Proof of economic and financial capacity may in particular be furnished by one or more of the following documents:

- a) appropriate statements from banks;
- b) financial statements for the last 3 years for which the accounts have been closed;
- c) a statement of overall turnover and turnover concerning the services covered by the contract during the last 3 financial years available.

The contracting authority may waive the obligation of a candidate or tenderer to submit the documentary evidence above if such evidence has already been submitted to it for the purposes of another procedure and it is still valid.

If, for some exceptional reasons which the contracting authority considers justified, the tenderer or candidate is unable to provide the references requested, he may prove his economic and financial capacity by any other means which the contracting authority considers appropriate.

If the economic and financial selection criteria are fulfilled by relying on a third party, the contracting authority may demand, if that tenderer wins the contract, that this party signs the contract (becomes a contractor) or, alternatively, provides a joint and several first-call guarantee. Imposing liability of the third party who provides financial capacity allows better protection of the Union's financial interests. It should be announced in the ToRs. If the third party chooses to sign the contract it should prove that it is not in an exclusion situation and that it has access to the market.

The contracting authority will conclude a contract following this tender with a single legal counterpart.

Minimum level(s) of standards possibly required: Only those proposals which meet all the selection criteria will be carried forward for assessment under the award criteria.

III.2.3. Technical and professional ability

List and brief description of conditions:

Evidence of the technical and professional capacity of economic operators may be furnished on the basis of the following documents:

a) Details of educational and professional qualifications of all the proposed experts providing the services (detailed CVs have to be included for this contract).

This should clearly indicate: their expertise of a minimum of 1 year in similar tasks and their knowledge of:

(1) trade law and customs procedures in general;

(2) the harmonised system for the classification of goods, including practical experience; and

(3) data processing.

b) A list of the principal similar projects that were carried out under the applicant's direct responsibility during the past 3 years proving merit and experience in:

(1) trade-related legislation;

(2) classifying goods; and

(3) data processing.

c) A sample of official documentation (original forms) issued in the third country customs area that establishes the tenderer's knowledge of the specific import formalities and official customs procedures for a range of sectors in the customs areas for which the tenderer is bidding.

Where no preprinted forms are available from the customs authorities (or other similar entities) in particular customs areas, printouts of electronic forms may be included, provided that the tenderer indicates that no other preprinted forms exist.

d) Supporting documents demonstrating a profound knowledge of the IT technologies necessary to create compliant country datasets: XML, XML Schema, XHTML, CSS, relational databases.

The provision of 1 or more complete sample dataset(s) via the inclusion of a CD-ROM in the offer will serve to demonstrate the tenderer's knowledge in that area. This is a mandatory part of the offer.

e) Confirmation by the tenderer that it will implement the technical standards set out in the terms of reference.

Where the tenderer wishes to subcontract or otherwise rely on the capacities of other entities, it must in that case prove that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal.

Where the successful tenderer is an individual, a partnership of individuals, or a sole trader, it will be expected to demonstrate that continuity of service can be guaranteed. The contracting authority will consider, inter alia, the risk to successful project completion that would be occasioned by the death or resignation of one or more of the individuals involved.

Only those proposals which meet all the selection criteria will be carried forward for assessment under the award criteria.

Minimum level(s) of standards possibly required:

The minimum professional and technical standards required are:

— substantial expertise of the team and professional experience to perform the tasks involved in this contract notice,

— profound knowledge of specific import procedures and formalities and official customs

procedures,

— profound knowledge of the structure of the IT technologies necessary to create compliant country datasets: XML, XML Schema, XHTML, CSS, relational databases.
