---

### II.1. Scope of the procurement

#### II.1.1. Title

Framework Agreement for Laundry Services of Work Clothing for brannvesen (the Fire Service)

Reference number: 2021/1711

#### II.1.2. Main CPV code

98310000 Washing and dry-cleaning services

#### II.1.3.

## **Type of contract**

Services

### **II.1.4. Short description**

Nedre Romerike brann- og redningsvesen (NRBR) [Nedre Romerike Fire and Rescue Service] intends to enter into a framework agreement for laundry services of work clothing that has been exposed to substances harmful to health such as carcinogenic and mutagenic substances smoke diving and chemical diving. The service will include transport; collection and delivery of work clothing for the fire stations included in this contract.

### **II.1.5. Estimated total value**

### **II.1.6. Information about lots**

This contract is divided into lots: no

## **II.2. Description**

### **II.2.2. Additional CPV code(s)**

35811100 Fire-brigade uniforms, 98311000 Laundry-collection services, 98312100 Textile-impregnation services

### **II.2.3. Place of performance**

NUTS code: NO082 Viken

### **II.2.4. Description of the procurement**

NRBR has eight fire stations; three with barracks and five part-time stations. The fire stations with barracks will be the main user of the contract (Lørenskog, Skedsmo and Nittedal). We currently have 90 full-time employed fire constables and 70 part-time employees.

We currently wash our work clothing ourselves in our own machines. The contract only includes washing of work clothing that has been exposed to substances harmful to health during smoke diving and chemical diving, including exercises. Assignments are performed by call-off when an incident has occurred resulting in work clothing being exposed to substances that are harmful to health, such as carcinogens and mutagenic substances during smoke and chemical diving.

Work clothing means turn-out jackets and trousers, overalls, fire hats, fire gloves, uniform trousers and uniform jumpers and wool under-clothing (singlets and pants). One set of work clothing consists primarily of turn-out jacket and trousers, fire hat and gloves, and weighs approx. 5 kg. The work clothing is personal and the contracting authority is responsible for labelling and sorting the work clothing. Underclothing such as uniform trousers and uniform jumpers as well as wool undergarments (wool singlet and wool trousers) will primarily be washed by the contracting authority.

We have calculated the extent of the laundry since no statistics are kept on this. We have taken as our starting point the average number of assignments categorised as fire and traffic accidents, since these include smoke and chemical diving, in the last 3 years (2017-2019), and estimate the scope at approx. 2 600 sets of work clothing per year that must be washed. The anticipated value of the procurement is calculated based on price per set with work clothing to approx. NOK 750 000 excluding VAT per year.

The contracting authority is not obligated to purchase a specific quantity of laundry services, and reserves the right for variations in the contract quantity.

### **II.2.5. Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.6. Estimated value**

### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months: 24

This contract is subject to renewal: yes

Description of renewals:

The framework agreement can be extended for a further 1 + 1 year, to a total maximum of 4 years.

### **II.2.10. Information about variants**

Variants will be accepted: no

### **II.2.11. Information about options**

Options: yes

Description of options:

The contracting authority has an option to extend the framework agreement for a further 1 year + 1 year, a total maximum of 4 years.

### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

### **II.2.14. Additional information**

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Tenderers must be a legally established company.

Norwegian tenderers: company registration certificate.

Foreign tenderers: confirmation that the supplier is registered in a branch register or in accordance with legislation in the country where the supplier is established.

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Tenderers must have sufficient financial strength to be able to fulfil the contract.

The tenderer's annual financial statements including notes with the Board's and auditor's reports from the last 2 years. If the annual financial statement for the last year have not been completed by the tender deadline for this competition, in addition the current annual financial statement must be added for the previous year. The contracting authority reserves the right to carry out a credit rating. Financial strength is evaluated in relation to turnover, operating profit margin, solidity and liquidity.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

Environmental management system.

The tenderer must have an environmental management system ensuring continual improvement of the organisation's competence and environment. Documented with a certificate of third party certification such as EMAS, ISO 14001, Eco-lighthouse or equivalent. tenderers must have good experience from similar deliveries.

Certificates from similar deliveries during the last 3 years. The certificates must be signed or confirmed in writing by the contracting authority for the various deliveries, and must as a minimum contain a brief description of the delivery, date of implementation and scope of delivery in amount. If a signed or confirmed certificate is not possible to obtain, the tenderer must provide a list of all relevant assignments with a description in accordance with the points above.

#### Quality assurance system

The tenderer shall have a good and well-functioning quality assurance system for the services that shall be provided.

The tenderer must account for the company's quality assurance system. Documented with a certificate of third party certification such as ISO 9001 or equivalent. If the tenderer is not certified, the quality system must be documented, by enclosing a quality manual that gives a description of the system for quality management and How it is used in the organisation.
