Section II: Object of the contract

II.1. Description

II.1.1. Title

Negotiated procedure for the procurement and maintenance of a web based energy follow-up system (EOS-system).

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 27: Other services

Main site or place of performance: Oslo.

NUTS code NO Norge

II.1.3. Information about a framework agreement or a dynamic purchasing system (DPS)

II.1.4. Short description of the contract or purchase(s)

Omsorgsbygg Oslo KF shall procure a web based energy follow-up system (EOS-system) to

monitor, register, report and analyse energy consumption and effect history in the property portfolio.

The EOS-system shall contribute to increased consciousness and control of self consumption and it shall be able, through detailed monitoring of consumption, to uncover and highlight possibilities for energy economising. In addition the system shall be able to document which energy saving measures give good and long term savings. This shall together contribute to improved quality and performance in running the buildings.

The EOS-system shall be delivered with the supplier's standard package of reports and viewings in the form of tables and diagrams. All the buildings shall be integrated in the system with full functionality when the contracting authority starts to use the EOS-system.

The portfolio that shall be established in the EOS-system includes all of the contracting authority's 608 properties that have electrical installations and which shall be grouped into teams. This is because the management, operation and maintenance of the company's properties is divided into 12 teams.

II.1.5. CPV code(s)

48000000 Software package and information systems, 71314000 Energy and related services, 71314200 Energy-management services, 71314300 Energy-efficiency consultancy services
