The notice involves a public contract

#### **II.1.4. Information about framework agreement**

#### **II.1.5. Short description of the contract or purchase(s)**

Oslo University Hospital [OUS] c/o The Purchasing Department hereby invites tenderers to a competition for entering into contract regarding electro technical works on southern generators that supply emergency power for Ullevål Hospital, Kirkeveien 166 Oslo.

Start up is planned for the end of September 2016 and completion in May 2017.

The Contractor requests tender offers on:

— Contract K401 New emergency supply generators on the basis of NS 8405: 2008.

The Contractor simultaneously collects contracts on K201 Foundations, K202 Morgue Demolition, K402 Generator distributions in containers and Interaction Contract K405 electro technical works. By allocating the interaction responsibility to one of the juxtaposed contracts, the Contractor wants to ensure that they get a well coordinated execution of the project in close collaboration with the hospital in operation. In this instances, 'hospital in operation' means extremely critical activity in the affected building connected to the emergency power supply. The Contractor has a duty to actively collaborate with the interaction contractor, other contractors, the Contractor's project manager and construction manager.

The project comprises new generators that shall supply the hospital's south area with emergency power. The area includes buildings with the most patient critical somatic activity with many operating theatres.

The buildings that shall be connected to the southern generators are buildings 2+3+4+6+7+8+9+13+14+16+17. Improvement of infrastructure, excavation and cabling to the buildings is not included in the execution of this project/contract.

The following ins included in this project:

Four (4) new emergency power generators shall be delivered in container solutions at Ullevål University Hospital. There are currently three emergency power generators in containers that supply several buildings with backup power/emergency power. New generators are being co-located between buildings 13 and 14 in a 3+N solution.

This description includes delivery and installation of distributions including containers.

The existing three (3) emergency power generators in containers shall be transported away and possibly reconstructed in order to suit OUS Ullevål's control and monitoring system for emergency power generators as well as be prepared for Auto Test Function. The generators will be stored until they can be reconstructed and relocated at a suitable northern area location. Reconstruction and re-installation will be part of contract K411 which at the time of writing no decision has been made for the implementation.

The emergency power system should be in full operation at all times and phases are planned in an interaction memorandum.

Collaboration has been facilitated with other contracts:

Southern area:

K201 Foundation

K202 Morgue demolition

K402 New board containers and communications containers

K405 Coupling of generators and board containers

K501 Monitoring/control SCADA and PMS (tender documentation is not determined for publication as of today's date).

Northern area (tender documentation is not determined for publication as of today's date).

K211 Foundation for generators and reconstruction of the existing generator room.

K411 Reconstruction and relocation of the existing emergency power generators in containers.

K413 Distributions and coupling of northern generators.

A number of technical and functional requirements have been set that shall apply for engineering design, quality of equipment and installation.

For a detailed description of the scope of the project, refer to the descriptions and drawings attached to this tender documentation. See annex 1-7.

**II.1.6. CPV code(s)**

45000000 Construction work

**II.1.7. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

**II.1.8. Lots**

This contract is divided into lots: no

**II.1.9. Information about variants**

Variants will be accepted: no

**II.2. Scope of the procurement**

**II.2.1. Total quantity or scope**

Estimated value excluding VAT:

Range: between 22 000 000 and 28 000 000 NOK

**II.2.2. Information about options**

Options: no

**II.2.3. Information about renewals**

This contract is subject to renewal: no

**II.3. Duration of the contract or time limit for completion**

**Section III: Legal, economic, financial and technical information**

---

**III.1. Conditions related to the contract**

**III.1.1. Deposits and guarantees required**

**III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them**

**III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded**

**III.1.4. Contract performance conditions**

The performance of the contract is subject to particular conditions: no

**III.2. Conditions for participation**

**III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions: Qualification Requirement: Tenderer shall provide certificates for tax and VAT.

Documentation:

– Tax and VAT certificate.

The certificate should not be more than six (6) months old. Any arrears must be explained / justified.

### **III.2.3. Technical and professional ability**

List and brief description of conditions:

Qualification Requirement: The tenderer should have a well functioning quality assurance system.

Documentation:

– Certificate for the company's quality system/management system issued by independent bodies, confirming that the tenderer fulfils certain quality assurance standards, for example ISO 9001:2008 or equivalent level.

– The Contracting Authority also accepts other documentation which demonstrates that the tenderer has quality assurance measures. As a minimum, a general description of the system's content, including an overview of inspection plans and check-lists that are relevant for this contract, must be submitted.

Qualification Requirement: The tenderer shall have capacity relating to the contractual obligations.

Documentation:

– A brief description of the Tenderer's capacity and technical units that the Tenderer can use for fulfilment of the contract.

Qualification Requirement: Good experience is required from assignments of equivalent size and complexity.

Documentation:

– The tenderer shall provide the three (3) most relevant reference projects from the last three years with information about the project's size, assignment value/nature, point in time of execution, recipient (name, telephone, email).

#### **III.2.4. Information about reserved contracts**

#### **III.3. Conditions specific to services contracts**

##### **III.3.1. Information about a particular profession**

Execution of the service is reserved to a particular profession: no

##### **III.3.2. Information about staff responsible for the performance of the contract**

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: yes

### **Section IV: Procedure**

---

#### **IV.1. Type of procedure**

##### **IV.1.1. Type of procedure**

Open

##### **IV.1.2. Information about the limits on the number of candidates to be invited**

##### **IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue**

#### **IV.2. Award criteria**

##### **IV.2.1. Award criteria**

The most economically advantageous tender in terms of Price is not the only award criterion and all criteria are stated only in the procurement documents

##### **IV.2.2. Information about electronic auction**

An electronic auction will be used: no

#### **IV.3. Administrative information**

##### **IV.3.1. File reference number attributed by the contracting authority**

2016/10606

##### **IV.3.2. Previous publication concerning this procedure**

no

##### **IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document**

Payable documents: no

##### **IV.3.4.**

**Time limit for receipt of tenders or requests to participate**

26.8.2016 - 12:00

**IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

**IV.3.6. Languages in which tenders or requests to participate may be submitted**

Other: Norwegian.

**IV.3.7. Minimum time frame during which the tenderer must maintain the tender**

**IV.3.8. Conditions for opening of tenders**

Persons authorised to be present at the opening of tenders: no

**Section VI: Complementary information**

---

**VI.1. Information about recurrence**

This is a recurrent procurement: no

**VI.2. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

**VI.3. Additional information**

**VI.4. Procedures for review**

**VI.4.1. Review body**

**VI.4.2. Review procedure**

**VI.4.3. Service from which information about the review procedure may be obtained**

**VI.5. Date of dispatch of this notice**

11.7.2016
