II.1.4. Short description of the contract or purchase(s)

Forsvarsbyg shall, in all its buildings and sites, have an inside climate and environment that fulfils the legal requirements for work places and residential units. This means that there is a need to carry out regular mapping, measurements and assessing measures for the inside climate in buildings/sites and shooting ranges as needed, for example:

- Carry out measurements of radon concentrations in work places, in rental housing, barracks and in rock halls, as well as carry out an assessment of measures.
 - Carry out measurements of air and dust in indoor and outdoor shooting ranges during shooting activities.
 - Carry out measurements of inside air as regards CO₂, temperature and humidity in work places and in residential units.
 - Map and carry out sampletaking of mould fungus and assess measures against mould fungus and rot damage in buildings.
 - Carry out measurements of chemicals and volatile organic compounds in inside air.
