Norway – Construction work – Asphalt contract 33-2026-02 Øvre Buskerud and Valdres

OJ S 69/2026 09/04/2026

Contract or concession award notice – standard regime

Works

### 1. Buyer

---

#### 1.1. Buyer

Official name: Statens vegvesen

Email: [tone.gunn.myhre@vegvesen.no](mailto:tone.gunn.myhre@vegvesen.no)

Legal type of the buyer: Body governed by public law, controlled by a central government authority

Activity of the contracting authority: General public services

### 2. Procedure

---

#### 2.1. Procedure

Title: Asphalt contract 33-2026-02 Øvre Buskerud and Valdres

Description: Asphalt

Procedure identifier: 22b66619-5857-4a3a-a3d0-d721b3be3a48

Previous notice: c3e5c18d-4a3b-413c-877a-3c2690b194d5-01

Internal identifier: 25/327793

Type of procedure: Open

The procedure is accelerated: no

##### 2.1.1. Purpose

Main nature of the contract: Works

Main classification (cpv): 45000000 Construction work

Additional classification (cpv): 44113600 Bitumen and asphalt, 44113620 Asphalt, 45233000

Construction, foundation and surface works for highways, roads, 45233222 Paving and asphaltting works, 45233223 Carriageway resurfacing works

##### 2.1.2. Place of performance

Country subdivision (NUTS): Buskerud (NO085)

Country: Norway

Additional information: Øvre Buskerud and Valdres

##### 2.1.3. Value

Estimated value excluding VAT: 65 000 000,00 NOK

##### 2.1.4. General information

**Legal basis:**

Directive 2014/24/EU

### 5. Lot

---

#### 5.1. Lot: LOT-0000

Title: Asphalt contract 33-2026-02 Øvre Buskerud and Valdres

Description: Asphalt  
Internal identifier: 25/327793

#### 5.1.1. Purpose

Main nature of the contract: Works  
Main classification (cpv): 45000000 Construction work  
Additional classification (cpv): 44113600 Bitumen and asphalt, 44113620 Asphalt, 45233000 Construction, foundation and surface works for highways, roads, 45233222 Paving and asphaltting works, 45233223 Carriageway resurfacing works

#### 5.1.2. Place of performance

Country subdivision (NUTS): Buskerud (NO085)  
Country: Norway  
Additional information: Øvre Buskerud and Valdres

#### 5.1.3. Estimated duration

Duration: 9 Months

#### 5.1.5. Value

Estimated value excluding VAT: 65 000 000,00 NOK

#### 5.1.6. General information

Procurement Project not financed with EU Funds.  
The procurement is covered by the Government Procurement Agreement (GPA): yes

#### 5.1.10. Award criteria

##### Criterion:

Type: Cost

Name: Co2 Weighting

Description: Co2 Weighting Award Criteria The builder in this contract will take CO<sub>2</sub>eq emissions into consideration in addition to price. This will help reduce the environmental consequences of production and paving of asphalt. See chapter D1.3 for information on any contract points not covered by the CO<sub>2</sub>eq weighting. The contract will be awarded the tender with the lowest tender sum. Lowest tender sum: The tender sum will be calculated by a mark-up based on the amount of CO<sub>2</sub>eq emissions. The tenderer with the lowest combined CO<sub>2</sub>eq emission will not receive any mark-up in the tender sum. The difference in emissions between your tender and the tender with the lowest emissions is calculated for the other tenderers. This difference is priced at 7.5 KR/kg CO<sub>2</sub>eq. The estimate in the tender sum will thus be the difference given in kg CO<sub>2</sub>eq multiplied by 7.5 NOK/kg CO<sub>2</sub>eq. Example point x: 10,000 tons asphalt Supplier A delivers an EPD that shows a discharge of 50 kg CO<sub>2</sub>eq/tonne of asphalt; i.e. emissions in total 500,000 kg CO<sub>2</sub>eq. Supplier A has the lowest emissions and receives no mark-up in the tender sum. Supplier B delivers an EPD showing a discharge of 60 kg CO<sub>2</sub>eq/tonne asphalt; i.e. emissions in total 600,000 kg CO<sub>2</sub>eq. The difference in relation to the lowest emission is (600,000-500,000) kg/CO<sub>2</sub>eq and the estimate for tenderer B will be 100,000 kg/CO<sub>2</sub>eq \* 7.50 KR/kg CO<sub>2</sub>eq = 750,000 NOK Documentation requirement: EPD shall be delivered in accordance with EN 15804 +A2: 2019 and approved by one or several members of the type Established ECO EPD Programme Operator» in eco-platform (i.a. EPD-Norway, Environdec and IBU) for each mass type at the points described in D1.3. This shall include the modules A1-A5 and C1-C3. It will be sufficient to deliver an EPD that includes modules A1-A3 and C1-C3 for each type of mass. In addition a set-up/spreadsheet must be delivered that shows the emissions in the modules A4 and A5 for each point. Contractors must document the prerequisites and measures that are the basis for calculating their EPDs. (e.g.

heating medium, use of LTA, reuse, biogenic binder etc.). The additional information form shall be completed and enclosed with the tender. The requested information in the annex "Additional Information FOR EPD Weighting of CO2" can be stated in a separate annex. All requested information shall be provided. The proposal's CO2 contribution shall be production specific; i.e. a separate EPD shall be available from each production location. If there are no separate EPDs, default values can be used for awarding contracts. When default values are used, real and documented values shall be included in the CO2 accounts when the contract is completed. When calculating the bonus/malus, the default values stated in the tender shall be used. Project specific EPDs that refer to approved reference EPDs shall be available at the tender deadline and enclosed with the tender. Requirement to submit EPDs with the tender as stated above is for the points where emission ceilings are set. If EPDs are submitted or budgets that state the value that exceeds the stated roof for CO2eq, it is not assessed as a condition and the tenderer must deal with the ceiling stated in the contract and the provisions on malus.

Description of the method to be used if weighting cannot be expressed by criteria: Co2 Weighting Award Criteria The builder in this contract will take CO2eq emissions into consideration in addition to price. This will help reduce the environmental consequences of production and paving of asphalt.

#### **5.1.15. Techniques**

**Framework agreement:**

No framework agreement

**Information about the dynamic purchasing system:**

No dynamic purchase system

#### **5.1.16. Further information, mediation and review**

Review organisation: Oslo tingrett

Information about review deadlines: The waiting period will be set after information on the award of contract.

Organisation signing the contract: Statens vegvesen

## **6. Results**

---

Value of all contracts awarded in this notice: 31 634 045,00 NOK

### **6.1. Result lot identifier: LOT-0000**

Winner selection status: At least one winner was chosen.

#### **6.1.2. Information about winners**

**Winner:**

Official name: Veidekke Industri AS

**Tender:**

Tender identifier: Asfaltkontrakt 33-2026-02 Øvre Buskerud og Valdres - Veidekke Industri AS

Identifier of lot or group of lots: LOT-0000

Value of the tender: 31 634 045,00 NOK

Subcontracting: No

**Contract information:**

Identifier of the contract: Asfaltkontrakt 33-2026-02 Øvre Buskerud og Valdres - Veidekke Industri AS

Date of the conclusion of the contract: 07/04/2026

Organisation signing the contract: Statens vegvesen

#### 6.1.4. Statistical information

##### Summary of the review requests the buyer received:

Number of complainants: 0

##### Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 3

## 8. Organisations

---

### 8.1. ORG-0001

Official name: Statens vegvesen

Registration number: 971032081

Department: Fellesfunksjoner
