II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The procurement falls outside the scope of application of the directive

Explanation:

Uninett has a primary framework agreement with Telia for mobile and Landline telephony services. There is a requirement for a provider of mobile services with a different radio network. Uninett also considers the 5G technology as an interesting opportunity

for IP traffic that originates and terminates in the research network provided by Uninett, so that users can seamlessly move in the research network both on and off campuses. Uninett has an ongoing dialogue with Telia about the use of a 5G radio network that support Uninett's own IP service, and this is a dialogue that Uninett also wants to have with the secondary supplier regarding his own radio network. This means that for technical reasons there is only one provider in the market who can fulfil the need.

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2020/S 050-119824](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice
