### **II.2.2. Information about options**

Options: no

### **II.2.3. Information about renewals**

This contract is subject to renewal: no

### **II.3. Duration of the contract or time limit for completion**

Duration in months: 020 (from the award of the contract)

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions related to the contract**

#### **III.1.1. Deposits and guarantees required**

See the tender documentation.

#### **III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them**

See the tender documentation.

#### **III.1.3.**

## **Legal form to be taken by the group of economic operators to whom the contract is to be awarded**

See the tender documentation.

### **III.1.4. Contract performance conditions**

The performance of the contract is subject to particular conditions: no

## **III.2. Conditions for participation**

### **III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions: It is a general requirement that the tenderer is qualified to carry out the work offered. The tenderer must have the necessary expertise and experience, technically, professionally, in organisational terms and administratively.

Information on the tenderer shall be given in the response form in chapter E2. It is important for assessment that the information and documentation is correct and complete.

Please note that the General Contractor can collect information from the Brønnøysund registers and from given references. If substantially incorrect information is given, this may lead to rejection, cf. Public Procurement Regulations (PPR)

§ 11-10 (2) g and § 20-12 (2) g.

The information will be discretely evaluated. The builder will also focus on information from self-evaluations of the tenderer.

Tenderers who do not fulfil the builder's qualification requirements will be rejected, cf. the Public Procurement Regulations § 8-4 and § 17-4. Every single requirement must be met. Each requirement which is not met will result in the provider being rejected.

The documentation with the tender will be the basis for the Builder evaluating whether requirements are met. Missing or inadequate documentation in one or more criteria can result in the offer being rejected.

### **III.2.2. Economic and financial ability**

List and brief description of conditions: 4.3.1 Equity. Solvency

Tenderers are required to have positive equity. If the tenderer is a working partnership (supplier consortium), the requirements apply for each of the participants.

Documentation requirement:

Documentation of equity is to be submitted the tender. Cf. Chapter E2, point 4.3.1, form E2 4.3.1.

Documentation of any significant changes to the tenderer's equity and solvency compared to the last accounts audit must accompany the tender.

### **III.2.3. Technical and professional ability**

List and brief description of conditions:

#### **4.1 Experience**

Tenderers who are recently established companies and consequently, cannot submit references, must be particularly careful to demonstrate that they have the ability to carry out the contract. The tenderer shall report their company formation and employee expertise. Planned organisation for the assignment and CV s for the key personnel in the project organisation are extremely important. This also applies for companies that merge or are acquired by another company during the tendering process.

#### **4.1.1 Experience from similar works Reference projects**

The tenderer shall have experience from work of the same nature and degree of difficulty.

Documentation requirement:

Information on such shall be attached with the tender. Cf. chapter E2, point 4.1.1, form E2-

#### 4.1.1.

Where the tenderer is dependent on a sub contractor in order to be qualified, the tenderer must document for the contracting authority that the tenderer will have authority over the required resources. This can be documented by the tenderer presenting a mutual statement of liability, or equivalent.

#### 4.1.2 Contractors experiences. Reference projects

NPRA and other builders' experiences with the tenderer will be appraised

The tenderer is required to show references to relevant contracts that they themselves have carried out in a satisfactory manner.

Conditions which will be evaluated are related to, a.:

- documentation of completed quality
- fulfilment of contracts
- compliance with provisions and procedures for HSE
- compliance with provisions for wages and working conditions
- observance of deadlines
- follow up during the warranty/claims period

Documentation requirement:

Information about contracts the tenderer has had in the last few years, with names of references at the contracting authority, shall accompany the tender. Cf. Chapter E2, point 4.1.2, form E2-4.212.

Any assessment forms from previously completed contracts can also be included in the basis for the evaluation.

#### 4.2 HSE

##### 4.2.1 Systematic HSE work

Tenderers shall have a system and routines that ensure that the HSE work is operated in a systematic manner in accordance with the internal control regulations, cf. the confirmation in the E5 tender form.

### **III.2.4. Information about reserved contracts**

#### **III.3. Conditions specific to services contracts**

##### **III.3.1. Information about a particular profession**

Execution of the service is reserved to a particular profession: no

##### **III.3.2. Information about staff responsible for the performance of the contract**

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no

## **Section IV: Procedure**

---
