Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

Please refer to tender documents.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

Please refer to tender documents.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

Economic operators can submit a tender either as a sole tenderer or as partners in a

consortium (with or without legal personality). In either case subcontracting is permitted. The tenderer must clearly specify the role of each economic operator — as a sole tenderer, a partner in a consortium or subcontractor. This also applies where the entities involved belong to the same economic group.

Each partner in a consortium assumes joint and several liability towards the contracting authority for implementation of the contract and will become a party to the contract if the consortium's tender is successful. The consortium shall nominate 1 legal entity ('the leader') who will have full authority to bind the consortium and each of its members during contract execution and will be responsible for the administrative management of the contract (invoicing, receiving payments, etc.) on behalf of all other partners.

Subcontracting is the situation where the contractor enters into legal commitments with other legal entities which will perform part of the contract on its behalf. The contractor retains full liability towards the contracting authority for implementation of the contract. Freelancing, drawing on the activities or staff of any other entirely different legal entity than the contractor, qualifies as subcontracting, independently of the applicable national law.

Tenderers must give an indication of the proportion of the contract that they intend to subcontract. They must also identify all subcontractors:

— on whose capacities they rely to meet the minimum capacity levels under headings III.2.2 and III.2.3.

Subcontractors must provide a letter of intent stating their willingness to participate in the performance of the contract as specified in the tender. During contract execution any change of subcontractors will be subject to prior written approval of the contracting authority.

A sole tenderer or a consortium may also rely on the capacities of other entities for meeting the minimum capacity levels under headings III.2.2 and III.2.3, regardless of the legal nature of the links which it has with them. If so, it must prove to the contracting authority that it will have the resources necessary for performance of the contract at its disposal, for example by providing an undertaking on the part of those entities. Reliance on the capacities of a third party which is a different legal entity from the sole tenderer or the consortium members, even though it is part of the same economic group, is considered subcontracting for the purposes of the procedure. If the contract is awarded to a tenderer relying on a third party to provide more than 90 % of the minimum requirements for economic and financial capacity listed under heading III.2.2, the contracting authority will require that the third party sign the contract and become jointly liable for its execution together with the tenderer.

The role and tasks of each consortium partner and identified subcontractors must be clearly specified in the tender. The cover letter must give the name of the tenderer (including all partners in the case of a consortium) and subcontractor(s), including third parties on whose capacities the tenderer relies, and the name of the single contact person in relation to this procedure. For consortia the cover letter must be signed by each partner, or by a partner duly authorised to sign the tender and the contract on behalf of all partners. In the latter case authorisation can be, for instance, in the form of a power of attorney, a letter of intent or a consortium agreement.

Tenderers (all partners in the case of a consortium) must also provide a legible copy of the notice of appointment of the persons authorised to represent the tenderer in dealings with third parties and in legal proceedings, or a copy of the publication of such appointment if the legislation which applies to the legal entity concerned requires such publication. Any delegation of this authorisation to another representative not indicated in the official appointment must be evidenced.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Tenderers will not be eligible to take part in this procedure if they are in any of the exclusion situations listed in Articles 106 and 107 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25.10.2012. Tenderers (including consortium partners) and subcontractors identified as per heading III.1.3 shall sign the declaration on honour (available on the contracting authority's website indicated in heading I.1) to declare that they are not in any of these situations.

The contracting authority reserves the right to verify all information contained in the declaration (s) by requiring the supporting documents listed in Article 143(3) of Commission Delegated Regulation (EU) No 1268/2012 of 29.10.2012 from the successful tenderer (including all partners in the case of a consortium) and all subcontractors identified in accordance with III.1.3.

Tenderers (all partners in the case of a consortium) shall prove that they have the legal capacity to perform the contract by providing a certificate of registration in the relevant trade or professional register in their country of establishment/incorporation. If the tenderer is not required or allowed to register in such a register for reasons related to its statute or legal status, the contracting authority may accept, as satisfactory evidence, a sworn declaration or certificate, membership of a specific organisation, express authorisation, or entry in the VAT register.

III.2.2. Economic and financial ability

List and brief description of conditions: a) statement of overall turnover, profits and losses and a balance sheet (or copy of the budget in the case of non-profit organisations), for the previous 3 financial years for which accounts have been closed.

Minimum level(s) of standards possibly required: a) minimum turnover average 100 000 EUR /year required.

III.2.3. Technical and professional ability

List and brief description of conditions:

b) list of principal clients and services provided over the course of the past 3 financial years, where work relevant to this tender was carried out, with an indication of the value of the services provided, in particular projects related to energy statistics and energy and emission databases as well as energy and fuel supply modelling;

c) a team of persons proposed to carry out the tasks described in the technical specifications, consisting at least of the following profiles: 1 project manager and 2 researchers. The tenderer must provide at least the minimum number of CVs per profile (preferably in Europass format). The precise contractual link with the tenderer must be specified. It is reminded that freelancing qualifies as subcontracting (see point III.1.3).

Minimum level(s) of standards possibly required:

b) minimum required: 3 years of experience in the field;

c) minimum required: at least 1 member of the team must have 1 year of experience in Vensim modelling platform.
