This project concerns the renewal of the signalling equipment on the existing LRUNIJ line, composed of two endpoints, one junction (both planned for 2018), entrance / exit to the depot area (2013) and the depot itself. The depot will firstly be renewed (2013) and reconstructed at a later stage (2016).

The construction of the Uithof line is foreseen in the period 2015-2016, while the OV Terminal will be realised in 2016.
