II.1.3. Information about framework agreement**II.1.4. Short description of the contract or purchase(s)**

Parts of military vehicles. The Authority is considering establishing a minimum of 3 enabling contracts to provide an enduring means of ordering Light Protected Personnel Vehicle spares. The scope of the Contract shall include, but is not limited to, spares in support of Husky, Jackal, Coyote, Warthog, Foxhound and CW 4 X 4. The duration of the Contracts shall be firm for 3 years with an option to extend for a further 1 year.

The initial competition shall be conducted on a sample of items that are representative of the range of items in scope of this requirement. Tenderers shall be provided with NATO Stock Numbers and either a copy of the relevant drawing (where appropriate) or the Manufacturer's part number, in which case tenders shall be required to source the items using ISIS.

The Authority shall award the Contracts based upon best value for Defence. Full details of tender evaluation criteria and the Contract award decision shall be provided within the ITT. Post contract award each of the successful contractors shall be provided with a list of new requirements on a periodic basis. Each Contractor shall be required to supply prices and lead-times for those items within a specified time frame. Line items shall then be added to the Contract offering the most favourable terms. All items awarded to the Contracts shall then be competed amongst the successful Contractors on an annual basis.

It is the Authorities intention to operate electronic trading by migrating the Contracts to Purchase 2 Payment (P2P) from the outset.

Any resulting Contract shall contain a set of Key Performance Indicators in areas such as delivery and quality and shall include remedies for poor performance.

Section VI: Complementary information

VI.1. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.2. Additional information

Suppliers interested in working with the Ministry of Defence should register on the MoD Supplier Information Database (SID) Register available at www.contracts.mod.uk The MoD SID is a database of active and potential suppliers available to all MoD and UK Defence procurement personnel and is the main supplier database of MoD procurement organisations.

Please note: the registration and publication of a company profile on the MoD SID does not mean or imply that the supplier has in any way been vetted or approved by the MoD. Suppliers wishing to compete for advertised MoD contracts must respond to any specific call for competition by submitting a separate expression of interest in accordance with the instructions of the purchasing organisation.

From 2.4.2014 the Government is introducing its new Government Security Classifications Policy (GSC) to replace the current Government Protective Marking Scheme. A key aspect of this is the reduction in the number of security classifications used. All suppliers to the department are encouraged to make themselves aware of the changes as it may impact on this requirement. The link below to the gov.uk website provides information on the new GSC.
<https://www.gov.uk/government/publications/government-security-classifications>

The Authority reserves the right to amend any condition related to security of information to reflect any changes in national law or government policy. If any contract documents are accompanied by instructions on safeguarding classified information (e.g. a Security Aspects Letter), the Authority reserves the right to amend the terms of these instructions to reflect any changes in national law or government policy whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies or otherwise.

Advertising Regime OJEU: This contract opportunity is published in the Official Journal of the European Union (OJEU), the MoD Defence Contracts Bulletin and www.contracts.mod.uk
