**II.1.4. Short description**

The 2015 TEN-T (Roads) Performance Report is the fourth biennial report that CEDR has published on the performance of the TEN-T (Roads) network within CEDR member countries. The first performance report was published in 2009 and since then, despite being voluntary, 24 of CEDR's member countries have chosen to participate in at least 1 of the 4 reports. CEDR's intention in producing these reports is to establish a stable set of data with which to monitor trends and identify changes in the performance of the TEN-T (Roads) network. As such, the report is a particularly useful source of information for individual NRAs, regulatory bodies and others for benchmarking purposes and for setting national performance targets.

The object of this contract is to collate and assemble the TEN-T Performance Report 2017.
