Services

1. Buyer

1.1. Buyer

Official name: Presidencia de la Confederación Hidrográfica del Segura

Email: contratacion@chsegura.es

Legal type of the buyer: Central government authority

Activity of the contracting authority: Environmental protection

2. Procedure

2.1. Procedure

Title: Servicios para el desarrollo de actuaciones preventivas para la protección frente a inundaciones en la Demarcación Hidrográfica Del Segura (PGRI Segura).

Description: El artículo 94 del TRLA designa a las Comisarías de Aguas en el ámbito de las cuencas intercomunitarias como las encargadas de las funciones de la inspección y control del dominio público hidráulico, la inspección y vigilancia de los condicionados y obras relativos a concesiones y autorizaciones en DPH y, en general, la aplicación de la normativa de policía de aguas y cauces, y en este marco, estas unidades han realizado a lo largo del tiempo numerosas actuaciones de mejoras y recuperación de capacidad de cauces, en los que se ejecutan multitud de actuaciones, orientadas a mantener la capacidad de desagüe natural de los cauces. Por su parte, el programa de medidas del Plan de gestión de riesgos de inundación (2º ciclo) de la Demarcación Hidrográfica del Segura tiene por objetivo que no se incremente el riesgo de inundación actualmente existente, y que, en lo posible, se reduzca mediante la prevención, protección y preparación; todo ello considerando los posibles efectos del cambio Climático. En relación con los objetivos de protección de las aguas y del dominio público hidráulico y de prevención, protección y preparación ante el riesgo de inundación; a través de las labores de mejora y recuperación de capacidad de cauces se pretende conseguir la mejora del régimen de corrientes y recuperación del espacio fluvial eliminando obstáculos, posibles tapones y acumulaciones excesivas de restos vegetales, además de llevar a cabo otras actuaciones puntuales de estabilización y reparación de márgenes que estén sufriendo procesos erosivos o con riesgo de sufrirlos. También se realizarán actuaciones correctivas tras posibles episodios de crecidas e inundaciones y actividades de restauración de vegetación de ribera que contribuyan a que se restablezcan los procesos naturales en el ecosistema fluvial facilitando su auto-recuperación y contribuyendo a alcanzar también el objetivo de mejorar el estado de las masas de agua, en coordinación con la Directiva Marco del Agua, puesto que está ampliamente demostrado que un río en buen estado es capaz de adaptarse y responder con mayor eficacia ante eventos extremos.
