Norway – Construction work – Asphalt contract 46-2026-02 European and national roads in Hordaland

OJ S 73/2026 15/04/2026

Contract or concession award notice – standard regime

Works

1. Buyer

1.1. Buyer

Official name: Statens vegvesen

Email: marianne.rogne@vegvesen.no

Legal type of the buyer: Body governed by public law, controlled by a central government authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Asphalt contract 46-2026-02 European and national roads in Hordaland

Description: The contract is for milling and asphaltting work in bergen, Ullensvang, Eidfjord, Voss and Elves municipalities. The contract also includes milling work for reinforced road marking (FVO) at the contact point in question. Some contract points also include the establishment of rice-detecting joints. The contract consists of 17 points with a total tonnage of approx. 20,000 tonnes of asphalt and a duration of seven months (April – October).

Procedure identifier: 4d011913-9485-4e27-be20-318a92722bd1

Previous notice: ee9dad32-1ab5-4497-b040-9643eccc764f-01

Internal identifier: 26/2515

Type of procedure: Open

The procedure is accelerated: no

2.1.1. Purpose

Main nature of the contract: Works

Main classification (cpv): 45000000 Construction work

Additional classification (cpv): 44113600 Bitumen and asphalt, 44113620 Asphalt, 45233000 Construction, foundation and surface works for highways, roads, 45233222 Paving and asphaltting works, 45233251 Resurfacing works

2.1.2. Place of performance

Country subdivision (NUTS): Vestland (NO0A2)

Country: Norway

Additional information: The contract is for milling and asphaltting work in bergen, Ullensvang, Eidfjord, Voss and Elves municipalities.

2.1.3. Value

Estimated value excluding VAT: 60 000 000,00 NOK

2.1.4. General information

Legal basis:

5. Lot

5.1. Lot: LOT-0000

Additional information: The contract is for milling and asphaltting work in bergen, Ullensvang, Eidfjord, Voss and Elves municipalities.

5.1.3. Estimated duration

Duration: 7 Months

5.1.5. Value

Estimated value excluding VAT: 60 000 000,00 NOK

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.10. Award criteria

Criterion:

Type: Cost

Name: Co2 - Weighting

Description: The builder in this contract will take CO₂eq emissions into consideration in addition to price. This will help reduce the environmental consequences of production and paving of asphalt. See chapter D1.3 for information on any contract points not covered by the CO₂eq weighting. The contract will be awarded the tender with the lowest tender sum. Lowest tender sum: The tender sum will be calculated by a mark-up based on the amount of CO₂eq emissions. The tenderer with the lowest combined CO₂eq emission will not receive any mark-up in the tender sum. The difference in emissions between your tender and the tender with the lowest emissions is calculated for the other tenderers. This difference is priced at 7.5 KR/kg CO₂eq. The estimate in the tender sum will thus be the difference given in kg CO₂eq multiplied by 7.5 NOK/kg CO₂eq. Example point x: 10,000 tons asphalt Supplier A delivers an EPD that shows a discharge of 50 kg CO₂eq/tonne of asphalt; i.e. emissions in total 500,000 kg CO₂eq. Tenderer A has the lowest emissions and will not receive any mark-up in the

competition sum. Supplier B delivers an EPD showing a discharge of 60 kg CO₂eq/tonne asphalt; i.e. emissions in total 600,000 kg CO₂eq. The difference compared to the lowest emissions is (600,000-500,000) kg/CO₂eq and the estimate for tenderer B will be 100,000 kg /CO₂eq * 7.50 NOK/kg CO₂eq = 750,000 NOK Documentation requirement: EPD shall be delivered in accordance with EN 15804 +A2: 2019 and approved by one or several members of the type Established ECO EPD Programme Operator» in eco-platform (i.a. EPD-Norway, Environdec and IBU) for each mass type at the points described in D1.3. This shall include the modules A1-A5 and C1-C3. It will be sufficient to deliver an EPD that includes modules A1-A3 and C1-C3 for each type of mass. In addition a set-up/spreadsheets must be delivered that shows the emissions in the modules A4 and A5 for each point. Contractors must document the prerequisites and measures that are the basis for calculating their EPDs. (e.g. heating medium, use of LTA, reuse, biogenic binder etc.) The additional information form shall be completed and enclosed with the tender. The requested information in the annex "Additional Information FOR EPD Weighting of CO₂" can be stated in a separate annex. All requested information shall be provided. The proposal's CO₂ contribution shall be production specific; i. e. a separate EPD shall be available from each production location. If there are no separate EPDs, default values can be used for awarding contracts. When default values are used, real and documented values shall be included in the CO₂ accounts when the contract is completed. When calculating the bonus/malus, the default values stated in the tender shall be used. Project specific EPDs that refer to approved reference EPDs shall be available at the tender deadline and enclosed with the tender. Requirement to submit EPDs with the tender as stated above is for the points where emission ceilings are set If EPDs are submitted or budgets that state the value that exceeds the stated roof for CO₂eq, it is not assessed as a condition and the tenderer must deal with the ceiling stated in the contract and the provisions on malus.

Description of the method to be used if weighting cannot be expressed by criteria: The contract will be awarded the tender with the lowest tender sum. The tender sum will be calculated by a mark-up based on the amount of CO₂eq emissions.

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: Oslo tingrett

Information about review deadlines: The waiting period deadlines are in the PPR. § 25-2.

Organisation signing the contract: Statens vegvesen

6. Results

Value of all contracts awarded in this notice: 51 539 048,00 NOK

6.1. Result lot identifier: LOT-0000

Winner selection status: At least one winner was chosen.

6.1.2. Information about winners

Winner:

Official name: NCC Industry

Tender:

Tender identifier: Asfaltkontrakt 46-2026-02 Europa-og riksveier i Hordaland - NCC Industry

Identifier of lot or group of lots: LOT-0000

Value of the tender: 51 539 048,00 NOK

Subcontracting: Not yet known

Contract information:

Identifier of the contract: Asfaltkontrakt 46-2026-02 Europa-og riksveier i Hordaland - NCC Industry

Date on which the winner was chosen: 20/03/2026

Date of the conclusion of the contract: 07/04/2026

Organisation signing the contract: Statens vegvesen

6.1.4. Statistical information

Summary of the review requests the buyer received:

Number of complainants: 0

Received tenders or requests to participate:

Type of received submissions: Tenders

Number of tenders or requests to participate received: 3
