Norway – Geology, oceanography and hydrology services – Consultancy services for modelling of displacement wave or tsunami analyses from landslides in lakes and fjords

OJ S 74/2026 16/04/2026

Contract or concession notice – standard regime

Services

1. Buyer

1.1. Buyer

Official name: Norges vassdrags- og energidirektorat (NVE)

Email: rmgr@nve.no

Legal type of the buyer: Body governed by public law, controlled by a central government authority

Activity of the contracting authority: General public services

2. Procedure

2.1. Procedure

Title: Consultancy services for modelling of displacement wave or tsunami analyses from landslides in lakes and fjords

Description: The purpose of the procurement is to enter into a contract for the purchase of consultancy services for detailed modelling of displacement waves (tsunamis) generated by landslides (large rock avalanches) in fjords and lakes. The wave runup will be used for hazard zones and in some cases evacuation zones for unstable rock-slopes that are monitored in real time. The value of the Framework Agreement is estimated to be between NOK 0.8 million to NOK 2.4 million excl. VAT per year. The total value of the agreement is estimated to be around NOK 3.2 million to NOK 9.6 million excl. VAT over the maximum contract period of 4 years, including extensions. The maximum contract value will be NOK 12 million.

Procedure identifier: f6693992-0d3b-4ed4-874f-7d48d097e406

Internal identifier: 202602837

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: The purpose of the procurement is to enter into a contract for the purchase of consultancy services for detailed modelling of displacement waves (tsunamis) generated by landslides (large rock avalanches) in fjords and lakes. The wave runup will be used for hazard zones and in some cases evacuation zones for unstable rock-slopes that are monitored in real time. A full description of the delivery is given in the requirements specification, cf. SSA-R Appendix 1. The value of the Framework Agreement is estimated to be between NOK 0.8 million to NOK 2.4 million excl. VAT per year. The total value of the agreement is estimated to be around NOK 3.2 million to NOK 9.6 million excl. VAT over the maximum contract period of 4 years, including extensions. The maximum contract value will be NOK 12 million. The framework agreement is valid for 2 years from the date of signing. The client has the option to extend the agreement on the same terms by 1+1 years. The maximum length of the framework agreement will be 4 years (2+1+1).

2.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 71351900 Geology, oceanography and hydrology services
Additional classification (cpv): 71351910 Geology services, 71351920 Oceanography and hydrology services, 71353100 Hydrographic surveying services, 71354400 Hydrographic services

2.1.2. Place of performance

Country: Norway
Anywhere in the given country

2.1.3. Value

Estimated value excluding VAT: 12 000 000,00 NOK

2.1.4. General information

Legal basis:

Directive 2014/24/EU

Anskaffelsesforskriften - The purpose of the procurement is to enter into a contract for the purchase of consultancy services for detailed modelling of displacement waves (tsunamis) generated by landslides (large rock avalanches) in fjords and lakes. The wave runup will be used for hazard zones and in some cases evacuation zones for unstable rock-slopes that are monitored in real time.

2.1.6. Grounds for exclusion

Sources of grounds for exclusion: European Single Procurement Document (ESPD), Procurement Document

5. Lot

5.1. Lot: LOT-0000
