**Section II: Object**

**II.1. Scope of the procurement**

**II.1.1. Title**

Transport and Installation of Foundations for the Offshore Windfarm "EnBW He Dreih".  
Reference number: EnBW-2021-0007

**II.1.2. Main CPV code**

60600000 Water transport services

**II.1.3. Type of contract**

Services

**II.1.4. Short description**

The Tendering Company plans the installation of the Offshore Wind Farm "EnBW He Dreih" with 900 MW grid capacity, approximately 90 km of the North Sea coast.

The Tenderer shall bid for the foundation transport and installation (TI) scope.

The scope includes the following main points:

- TI scour protection incl. supply of rock material
- Handling, storage and logistics at the base port
- TI monopile (MP)
- TI anode cage (AC) and transition piece (TP) incl. grouted connection
- Rest works, secondary works & potential repair works.

Start of offshore works is Q1 2024.

**II.1.6.**

## **Information about lots**

This contract is divided into lots: no

### **II.1.7. Total value of the procurement**

Value excluding VAT: 0,01 EUR

## **II.2. Description**

### **II.2.3. Place of performance**

NUTS code: DE11 Stuttgart

Main site or place of performance: German EEZ - North Sea, HeDreih (Germany)

### **II.2.4. Description of the procurement**

As per planned tendering scope the Tenderer shall be capable and take a full responsibility for the transport and installation of foundations as well as the secondary, rest and repair works. A summary is given in the following listing: - Vessel and rock material for scour protection, transport and Installation - Harbour site and logistics at the base port - Vessel for monopile (MP) transport and installation - Vessel for anode cage (AC) and transition piece (TP) transport and installation including grouted connection - Impact hammer incl. noise absorber (IHC PULSE/ MENCK MNRU) - Pile near noise mitigation systems - State of the art far field noise mitigation system incl. necessary vessel with state of the art compressors - Measurement of noise emission (including online measurement) - Vessel(s) and for rest works, secondary works and potential repair works. Tenderer should consider that ongoing and future driveability studies until contract signing might result in a limitation of the suitable hammers and noise absorber due to required impact capacity. Results of the studies executed by the Tendering Company will be shared with the tenderer upon availability. The Tendering Company reserves its right to exclude a non suitable hammer incl. noise absorber after final driveability assessments and a test of noise absorber unit under offshore conditions. If required, the Tendering Company is open to enter into a reservation agreement. In case the Tenderer intends to use the NMS including a positioning template the Tenderer shall proof the capability of his equipment to handle the total weight of approx. 2500t of a NMS with fixed template. Specifications of a conceptual design of the IHC IQIP NMS with template will be shared with the qualified Tenderer. For details of foundation design and site data please see the attached document "Annex tender notice\_design parameter and site data".

### **II.2.5. Award criteria**

Price

### **II.2.11. Information about options**

Options: yes

Description of options:

1) The contract can be prolonged, if necessary. 2) A Reservation Agreement can be set up, if necessary. 3) Please note that there are two cases for the pile near noise mitigation system in the offer submission phase: Base Case (IHC NMS 10000) is obligatory and alternative case, which is optional. Further information will be submitted with ITT.

### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

### **II.2.14. Additional information**

## **Section IV: Procedure**

## **IV.1. Description**

### **IV.1.1. Type of procedure**

Negotiated procedure with prior call for competition

### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

## **IV.2. Administrative information**

### **IV.2.1. Previous publication concerning this procedure**

Notice number in the OJ S: [2021/S 035-088469](#)

### **IV.2.8. Information about termination of dynamic purchasing system**

### **IV.2.9. Information about termination of call for competition in the form of a periodic indicative notice**

## **Section V: Award of contract**

---

**Contract No:** 1

**Title:**

Transport and Installation of Foundations for the Offshore Windfarm "EnBW He Dreih".

A contract/lot is awarded: yes

## **V.2. Award of contract**

### **V.2.1. Date of conclusion of the contract**

12/04/2022

### **V.2.2. Information about tenders**

Number of tenders received: 10

Number of tenders received from SMEs: 2

Number of tenders received from tenderers from other EU Member States: 5

Number of tenders received from tenderers from non-EU Member States: 3

Number of tenders received by electronic means: 10

The contract has been awarded to a group of economic operators: no

### **V.2.3. Name and address of the contractor**

Official name: Heerema Marine Contractors Nederland SE

Postal address: Vondellaan 47

Town: Leiden

NUTS code: NL337 Agglomeratie Leiden en Bollenstreek

Postal code: 2332AA

Country: Netherlands

The contractor is an SME: no

### **V.2.4. Information on value of the contract/lot**

### **V.2.5. Information about subcontracting**

## **V.2.6. Price paid for bargain purchases**
