Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

41-BYM-2022 Consultancy services within bridge management

Reference number: 22/13688

II.1.2. Main CPV code

71000000 Architectural, construction, engineering and inspection services

II.1.3. Type of contract

Services

II.1.4. Short description

The Agency for Urban Environment in Oslo Municipality is responsible for the planning, development, management, and operation of municipal urban spaces in Oslo. The urban spaces include common areas such as roads and streets, squares, meeting places, parks and recreational areas. The areas of responsibility also include municipal sports centres, recreational installations, and municipal landscape areas in uncultivated land and inner Oslo fjord. Bridge management will see to the infrastructure and ensure compliance with the requirements for a good and uniform standard for the safety and functionality of supporting constructions. The procurement will contribute to achieving the contracting authority's goal of making Oslo a safe, beautiful, green, and active city for everyone.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

71310000 Consultative engineering and construction services, 71322300 Bridge-design services, 71630000 Technical inspection and testing services, 71631400 Technical inspection services of engineering structures, 71631450 Bridge-inspection services

II.2.3. Place of performance

NUTS code: NO081 Oslo

II.2.4. Description of the procurement

Bridge management will see to the infrastructure and ensure compliance with the requirements for a good and uniform standard for the safety and functionality of supporting constructions. The contracting authority is responsible for approx. 360 bridges (mainly on roads and streets). Of which, approx. 180 bridges must have a main inspection over a 5-year period under this contract. In addition there will be a need to inspect bridges on the path network and on uncultivated land.

The procurement covers consultancy services/advisory services with competence in bridge inspections, main inspections, bridge classification, and maintenance engineering design services. The procurement will cover the capacity for a project manager/ quality assurer with overall responsibility for follow-up and inspection reports, resources for inspections, as well as resources for maintenance engineering design services.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 60

This contract is subject to renewal: no

II.2.10.

Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Requirement: Tenderers must be a legally established company.

Documentation requirement: Register printout or company registration certificate.

Foreign tenderers: Verification that the company is registered in a trade index or a register of business enterprises as prescribed by the law of the country where the company is established.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

The contracting authority will obtain a credit assessment itself.

Minimum level(s) of standards possibly required:

Tenderers must have sufficient financial capacity to carry out the assignment.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

1. An overview of the most important relevant services of that the tenderer has carried out in the last three years, together with information on the contract value, date of delivery or execution, and name of the recipient. It must be clear what work was done by the tenderer.
2. An account of the tenderer's quality assurance system. The account must include a short description of routines and methods for execution, internal control and documentation for field work. If a tenderer is certified, a copy of a certificate issued by the certification body shall be submitted. Tenderers can then ignore the above documentation requirement.

Minimum level(s) of standards possibly required:

1. Tenderers must have experience with main inspections of bridges, load carrying classification of bridges, and maintenance engineering design services for bridges and supporting walls on public walls.
2. Tenderers must have a quality assurance system.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

The contractual relationship will be regulated by NS8402 General Contract Provisions for Consultancy Assignments, with Oslo Municipality's contract formular/provisions for NS8402. See the attached contract formula for information on Oslo Municipality's contract provisions.

III.2.3. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract
