Software package and information systems. Software maintenance and repair services. The Trust requires a single, specialist Chemotherapy Electronic Prescribing and Medicines Administration (cEPMA) Information Technology (IT) System for Cancer Services. This cEPMA system must deliver full compliance with prevailing UK legal requirements, standards of practice, data-set submissions and NHS information governance frameworks. In doing so, the cEPMA will provide a complete and chronological Electronic Patient Record (EPR) of all

episodes of contact with the cancer services team. This will include prescribing, reviewing, referring, compounding, dispensing, reporting and administering systemic anticancer chemotherapy. The cEPMA solution needs to interface with a number of IT systems to provide both clinical and administrative functions, with the ability to handle services that are located across multiple sites, both in acute (hospital) and community/outpatient settings.
