VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:

The contracting authority will incorporate a minimum 10 calendar day standstill period at the point that information on the award of the contracts is communicated to suppliers.

Unsuccessful suppliers shall be informed by the contracting authority as soon as possible after the decision has been made. If an appeal regarding the award of the contract has not been successfully resolved, The Public Contracts Regulations 2015 (SI 2015 No 102) provide for aggrieved parties who have been harmed or are at risk of harm by the breach of the rules to take legal action. Any such action must be brought within the applicable limitation period.

Where a contract has not been entered into, the Court may order the setting aside of the award decision or order the contracting authority to amend any document and may award damages. If the contract has been entered into the Court may, depending on the circumstances, award damages, make a declaration of ineffectiveness, order the contracting authority to pay a fine and/or order that the duration of the contract is shortened. The purpose of the standstill period referred to above is to allow the parties to apply to the Courts to set aside the award decision before the contract is entered into.
