5.1.15. Techniques

Framework agreement:

Framework agreement, without reopening of competition

Maximum number of participants: 1

Justification for the duration of the framework agreement: Comment on the contract's length: Bjørnafjorden municipality has previously entered into framework agreements for leasing vehicles and vehicle administration with a maximum of four years duration. It turns out that a supplier change causes a number of disadvantages for the contracting authority: For example, the contracting authority must administer two contracts because previously delivered vehicles are in the contract portfolio of the former supplier, while new cars are ordered by a new supplier. In order to avoid administering vehicles by up to three suppliers at the same time, the contract length is set to 5+1 years. This also limits the transaction costs connected to supplier exchange and contract follow-up.

Information about the dynamic purchasing system:

No dynamic purchase system
