General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Open tender competition — procurement of Robotics Process Automation (RPA).

Reference number: 17/253

II.1.2. Main CPV code

48000000 Software package and information systems

II.1.3. Type of contract

Services

II.1.4. Short description

Direktoratet for økonomistyring (DFØ) [the Norwegian Government Agency for Financial Management] has carried out to preliminary projects where we have mapped and identified processed with RPA automation potential in the area of accounts and wages.

We wish to introduce the use of RPA technology in our system solutions, initially for the processes identified in the above named preliminary projects. For these processes, we have an imminent need for procurement of RPA software, implementation of the software, setting up of the processes on the software, training of various user groups and preparation of associated documentation. In the long term, an expanded use of RPA technology could be used for further departments and/or multiple processes in DFØ.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 2 700 000,00 MTL

II.2. Description

II.2.2. Additional CPV code(s)

48000000 Software package and information systems, 72000000 IT services: consulting, software development, Internet and support

II.2.3. Place of performance

NUTS code: NO Norge

Main site or place of performance: Oslo.

II.2.4. Description of the procurement

Direktoratet for økonomistyring (DFØ) [the Norwegian Government Agency for Financial Management] has carried out to preliminary projects where we have mapped and identified processed with RPA automation potential in the area of accounts and wages.

We wish to introduce the use of RPA technology in our system solutions, initially for the processes identified in the above named preliminary projects. For these processes, we have an imminent need for procurement of RPA software, implementation of the software, setting up of the processes on the software, training of various user groups and preparation of associated documentation.

With regard to assistance for process set up on the RPA software, we want to prepare the necessary competence for internal resources as quickly as possible. The selected tenderer shall therefore ensure transfer of competence, i.a. in the form of training and/or side by side work. As a result of this, the impending procurement shall initially only include consultancy services to the process set up for selected processes. Consultancy services for process set up for further processes will be included in the options that DFØ can call of as needed. We want a fixed price on such assistance.

In the long term, an expanded use of RPA technology could be used for further departments and/or multiple processes in DFØ. At the same time as entering into framework agreements for addition purchasing in the RPA area, we also want, for example, expanded use of the software, set up of processes, training, consulting etc. The framework agreement will have a duration of two years + one year + one year.

II.2.5. Award criteria

Quality criterion - Name: Quality / Weighting: 40.

Quality criterion - Name: Flexibility / Weighting: 30

Price - Weighting: 30

II.2.11. Information about options

Options: yes

Description of options:

Consultancy services for process set up for multiple further processes than those under the main procurement.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no
