Internet address(es):

Main address: www.ringsaker.kommune.no

I.2. Information about joint procurement

The contract involves joint procurement

I.3. Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at: <https://permalink.mercell.com/105751026.aspx>

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: <https://permalink.mercell.com/105751026.aspx>

I.6.

Main activity

Other activity: Water and sewage

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Procurement of Chemicals for the Operation of Water Treatment and Purification Plants
Reference number: 2019/336

II.1.2. Main CPV code

24962000 Water-treatment chemicals

II.1.3. Type of contract

Supplies

II.1.4. Short description

Hias IKS and Ringsaker Municipality invite tenderers to a contest for the delivery of chemicals for use in the processes at the sewage treatment plants and the water treatment plants owned by Hias IKS and Ringsaker Municipality. The plants are located in the municipalities Hamar, Stange and Ringsaker.

A Framework Agreement will be signed with one tenderer per chemical type, cf. the Contracting Authority's requirement specifications.

This is a restricted tender contest, stage 1 is an application for participation and stage 2 is the submission of tenders from those who are qualified.

II.1.5. Estimated total value

Value excluding VAT: 60 000 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

24960000 Various chemical products, 24510000 Primary-form polymers of ethylene, 24312122 Ferric chloride, 24954000 Activated carbon, 24312220 Sodium hypochlorite

II.2.3. Place of performance

NUTS code: NO021 Hedmark

Main site or place of performance: Stange.

II.2.4. Description of the procurement

Hias' sewage treatment plant is located in Ottestad in Stange Municipality, and it annually treats approx. 8 000 000 m³ sewage water from approx. 130 000 person equivalents. The purification processes consist of mechanical, biological and chemical purification stages. Furthermore, thermal hydrolysis and anaerobe stabilisation of the sludge is carried out in accordance with the Cambi method. The sewage treatment plan mainly uses chemicals for treating sewage water and for dewatering sludge (polymer), in addition to using chemicals in the odour treatment processes.

The sewage treatment plant is currently being altered to biological phosphor removal. This means that chemical precipitation will be phased out as a process at the plant over a 2-year period. However chemical precipitation will remain at the storm water plant and as stand-by if the biological process fails.

Hias owns and operates 2 water treatment plants. Hamar water treatment plant is located in Hamar Municipality and produces approx. 3 500 000 m³ of drinking water per annum for approx. 30 000 persons in Hamar and parts of Ringsaker, Løten and Stange Municipalities. The water treatment consists of corrosion control (marble and CO₂) before the water is disinfected by adding chlorine and UV treatment. Stange water treatment plant is located in Stange Municipality and produces approx. 2 500 000 m³ of drinking water for approx. 19 000 persons in mainly Stange and Løten Municipalities. The water treatment consists of filtration, adding chlorine and alkali silicate, and UV treatment.

Hias is in the process of constructing a new water treatment plant in Ottestad next to the current sewage treatment plant. The new water treatment plant will be ready autumn 2021. It will be dimensioned for a capacity of 400 litres/second. The process is precipitation in 3 media filters with marble at the bottom for alkalisation, as well as chlorine and UV as the last 2 hygienic barriers. The current plant at Hamar will be stopped and closed down after the new plant has been commissioned.

Ringsaker Municipality owns and operates 3 waterworks and 7 treatment plans, of which one treatment plant, Veslelien RA, is operated for Kirkens bymisjon.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 60 000 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/11/2019 End: 31/10/2021

This contract is subject to renewal: yes

Description of renewals:

Option for an extension of 1 year + 1 year.

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 3 Maximum number: 5 Objective criteria for choosing the limited number of candidates:

Economic and financial position: 30 %

The tenderer's technical and professional qualifications: 70 %

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

See the tender documentation, qualification section.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

See the tender documentation, qualification section.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

See the tender documentation, qualification section.

III.1.4. Objective rules and criteria for participation

List and brief description of rules and criteria:

See the tender documentation.

III.1.6. Deposits and guarantees required

No

III.1.7. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

No

III.1.8. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

No

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Restricted procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 05/07/2019 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

Date: 10/07/2019

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.6.

Minimum time frame during which the tenderer must maintain the tender

Duration in months: 4 (from the date stated for receipt of tender)

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Hias IKS

Town: Ottestad

Postal code: 2312

Country: Norway

VI.5. Date of dispatch of this notice

05/06/2019
