**II.1.4. Short description**

The British Museum is looking to update and replace an expired consultancy framework for the delivery of construction and renewal/refurbishment projects, as well as strategic and technical studies which are used by the Museum in decision making on the scope, scale and investment priorities for the estate. The need to re-establish a procurement route for these services has been used as an opportunity to review requirements and rationalise the former wide-ranging suite of six multi-lot frameworks into a single more streamlined framework based on the following 5 lots:

1) Lot 1 Project Management;

- 2) Lot 2 Quantity Surveying;
- 3) Lot 3 Mechanical, Electrical, Public Health and Fire Engineering;
- 4) Lot 4 Architecture and Interior Design;
- 5) Lot 5 Structural and Civil Engineering.

In addition to the services delivered in the five core lots, there will be non-core and specialist duties (see individual lot details below).
