Tenders or requests to participate must be submitted electronically via: http://eu.eu-supply.com/app/rfq/rwlenrance_s.asp?PID=362314&B=KGVLIGHT
Tenders or requests to participate must be submitted to the abovementioned address

I.4. Type of the contracting authority

Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Winter maintenance of municipal roads and spaces in Skjåk municipality 2023-2028
Reference number: 23/546

II.1.2. Main CPV code

90620000 Snow-clearing services

II.1.3. Type of contract

Services

II.1.4. Short description

The aim of the procurement is to cover the need for winter operations on municipal roads and spaces in Skjåk municipality during the period from 15 October 2023 until and including 15 March 2028.

The municipal roads and spaces are divided into three areas. The work mainly consists of emergency response, ploughing, possible grating, clearing of snow and ice, gritting and placement of plough markers, as well as various minor assignments. There is also a need for binding dust and street sweeping.

The contracting authority will also have an option to carry out invoicing work, to a limited extent. A total of up to five contracts will be signed

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: yes

Tenders may be submitted for all lots

Maximum number of lots that may be awarded to one tenderer: 5

II.2. Description

II.2.1. Title

Nordberg area

Lot No: 1

II.2.2. Additional CPV code(s)

90630000 Ice-clearing services

II.2.3. Place of performance

NUTS code: NO020 Innlandet

Main site or place of performance: Skjåk, Norway

II.2.4. Description of the procurement

The aim of the procurement is to cover the need for winter operations on municipal roads and spaces in Skjåk municipality during the period from 15 October 2023 until and including 15 March 2028.

The municipal roads and spaces are divided into three areas. The work mainly consists of emergency response, ploughing, possible grating, clearing of snow and ice, gritting and placement of plough markers, as well as various minor assignments. There is also a need for binding dust and street sweeping.

The contracting authority will also have an option to carry out invoicing work, to a limited extent.

The municipality has adopted a new Master Plan for municipal roads, where winter standards are defined.

In the follow-up work on the Master Plan for municipal roads, reclassification of municipal roads on all routes in Skjåk municipality will be considered, and this will be presented for political consideration in autumn - winter 2023-24. The contracting authority therefore recognises that there may be significant changes, particularly in area 1, which will be significantly smaller in scope.

If a political decision is made to reclassify the roads such that the scope of area 1 is reduced by 1.8 kilometres of road or more, the contracting authority will not exercise the option for area 1 after one year. In this case, the contracting authority invokes the right to transfer the

remaining roads and spaces of area 1 to area 2. The price of additional ploughing/gritting in the added area will be calculated based on the m2 price offered for area 2 per completed ploughing/gritting. Tenderers for area 1 must commit to undertake this transfer. For further information on the content of the procurement, please refer to Part 2 Annex 1 Specification of the Requirement Specifications, Annex 1A Area Overview and Annex 4B Price Form.

This lot concerns the Nordberg area.

II.2.5. Award criteria

Criteria below
Price

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 12

This contract is subject to renewal: yes

Description of renewals:

Lot 1 will have a duration of one year, with an option for an extension for 3 + 1 year, for a total of less than 5 years.

Commencement is from the autumn season 2023, and the contract can be extended until and including the spring season 2028.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

The contracting authority will also have an option to carry out invoicing work, to a limited extent.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Implementation ability requirements - vehicles and equipment

Tenderers must have at their disposal sufficient vehicles and equipment to fulfil the contractual obligations for the lot(s) tendered. The equipment and machinery must be suitable for the intended use.

Tenderers submitting tenders for lots 4 and 5 must have sufficient vehicle/equipment capacity to fulfil the assignments for all three areas by the set deadlines.

See Annex 1 for a more detailed description of the equipment requirements.

Tenderers do not have to have all of the equipment at their disposal as of the date of tender submission, but must include a plan showing how the necessary equipment to handle the tendered lots will be obtained such that the equipment is ready for the start of the season or the period during which the service is to be provided.

Documentation:

Overview of what equipment must be available, for example:

- Tractor/wheeled loader
- Snow clearing equipment
- Salting/gritting equipment
- Equipment for grading
- Equipment for clearing snow
- Sweeper with suction, collection and water for dust suppression.
- Equipment for flushing bridge foundations

Annex 5 is to be completed and attached to the submitted tender. Use the free text field to explain if necessary.

If equipment from a subcontractor will be used, a declaration of commitment must be attached showing that the tenderer has the equipment at their disposal.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

The contract will include a requirement on wage and work terms, documentation and sanctions in accordance with the regulations on wage and work terms from 8 February 2008 no. 112.

Also refer to Part II.
