2.1. Procedure

Title: (2025-132) Project administrative assignments, framework agreement.

Description: The competition is for the delivery of a framework agreement for project administrative assignments that cover the municipalities' needs for project management, engineering design management, construction management, building management and programme reviews. Participants in the procurement: Eidsvoll, Gjerdrum, Hurdal, Nannestad, Nes and Ullensaker municipalities. The estimated value per annum and the maximum value for the entire contract period per group, including any options and the expected price rise are stated in point 1.1.4. The need is uncertain. The volume can vary both up and down and the contract period will depend on, among other things, the contracting authority's needs, activities, budgetary situations and other framework factors. See the procurement documents for further information. This procurement is considered to have an immaterial impact on climate and the environment, cf. the Regulations §7-9, fifth paragraph. The justification for this is that the procurement is for consultancy services/consultancy services where the contracting authority has been cut off from affecting climate and environmental impact, as the requirements and criteria that are aimed at these elements will not have sufficient connection to the delivery, cf. DFØ's environmental supervisor. Apprentices: The contracting authority has assessed the procurement against the apprentice regulations, cf. the Procurement Act § 7, and concluded that apprentices are not required in this procurement, as the contract's main element does not include work where it is relevant to use labour with vocational or craft certificates, cf. the apprentice regulations § 6 (3).

Internal identifier: 25376

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: The competition will be held in accordance with the Public Procurement Act from 17 June 2016 no. 73 (LOA), with the accompanying regulations of 12 August 2016 no. 974 (FOA), as well as the provisions in this tender documentation. The

competition will be held as an open tender contest in accordance with the regulations, Parts I and III. All interested tenderers can submit tenders for this type of procedure. Negotiations are not allowed. The procurement is announced in the DOFFIN and TED database.
