I.5. Main activity

Other activity: Development assistance

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Evaluation of the Danish Support for Climate Change Adaptation in Developing Countries

Reference number: 2019-8044

II.1.2.

Main CPV code

79419000 Evaluation consultancy services

II.1.3. Type of contract

Services

II.1.4. Short description

In 2019, the Evaluation Department (EVAL) under the Danish Ministry of Foreign Affairs will commission an evaluation of the support to climate change adaptation under the Danish Development Assistance budget. The evaluation will have a focus on interventions within climate adaptation as part of the climate envelope and as mainstreamed interventions within the overall development assistance portfolio. There will be a focus on learning, building on the outcomes of interventions carried out in the period 2008 to 2012 as reported in the evaluation published in 2015, and adding results obtained in the period 2013-2018.

II.1.5. Estimated total value

Value excluding VAT: 4 000 000,00 DKK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description**II.2.2. Additional CPV code(s)**

75211200 Foreign economic-aid-related services

II.2.3. Place of performance

NUTS code: DKZ Extra-Regio NUTS 1

Main site or place of performance: Country case studies in Kenya, Burkina Faso, Ethiopia and Bangladesh.

II.2.4. Description of the procurement

The evaluation will be based on a bottom-up approach with a strong focus on 4 country cases. The following countries, which provide examples from different regions, levels of development and fragility contexts, are tentative selected (with short justification):

Kenya. there are extensive climate-related activities in Kenya, both in terms of adaptation and mitigation. Kenya was included in the 2015 evaluation, which provides the opportunity to reevaluate after the initiatives have gained maturity. It also provides insights into an African context.

Bangladesh: Bangladesh provides an Asian case with very different contextual factors and climate change impacts. It also has a sizeable bilateral climate programme.

Burkina Faso: Burkina Faso is 'characterized by fragility' in Denmark's latest strategy (The World 2030) for development cooperation and humanitarian action. The country is subject to both political and climate-related fragility and receive significant Danish support to climate related initiatives. This could provide valuable learning on adaptation and resilience in fragile contexts.

Ethiopia: Ethiopia is to some extent stable but have fragile tendencies or areas. It will provide insight on mainstreaming climate change across the humanitarian-development nexus.

This list includes countries supported through the Climate Envelope as well as those supported through other climate-related ODA. The particular sectors or projects to evaluate will be country specific but could include, e.g. water (Burkina Faso, Bangladesh, Kenya), food

security and social protection (Ethiopia), local infrastructure (Bangladesh) — see country policy papers for additional information (<http://um.dk/da/danida/lande-og-regioner/landepolitikker>).

It is expected that the evaluation will include 4 categories of adaptation projects:

- (i) funded through the Climate Envelope (adaptation aspects of the 138 projects and programmes within the Climate Envelope 2008-2018);
- (ii) other bilateral assistance; 20-25 programmes/projects with a focus on climate adaptation interventions, which are part of Danish climate-related ODA, but outside the Climate Envelope. 17 of these are on activities in Bangladesh (4), Burkina Faso (6), Ethiopia (1) and Kenya (6). In addition, the evaluation will assess the adaptation elements of the climate screenings of Danida Country Programme, carried out 2005-2008;
- (iii) funded through NGOs; focus on a number of major NGOs with significant climate adaptation activities;
- (iv) funded through multilateral organisations (e.g. UN, the Green Climate Fund and World Bank).

In the 4 case countries, the evaluation will explore how various climate adaptation activities within the 4 categories intervenes.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

In Part III.A-C of the ESPD, economic operators must answer whether they are subject to exclusion grounds.

An economic operator is excluded from the procurement procedure if the economic operator itself or any person who is a member of its administrative, management or supervisory body or has powers of representation, decision or control therein has been convicted by final judgement or fined within the last 4 years for any of the exclusion grounds relating to the criminal convictions listed in Section 135(1) of the Danish Public Procurement Act.

An economic operator is excluded from the procurement procedure if it has unpaid overdue debt of 100 000 DKK or more to public authorities in relation to payment of taxes and payment of social security, cf. Section 135(3) of the Danish Public Procurement Act. An economic operator is, however, not excluded where the economic operator provides guarantee of payment of the part of the debt which constitutes 100 000 DKK or more, or where the economic operator has agreed on a repayment scheme with the collection authority and that scheme is observed, cf. Section 135(4).

An economic operator is excluded from the procurement procedure if it is subject to any of the exclusion grounds listed in Sections 136(1)(1) and 136(1)(2) of the Danish Public Procurement Act.

An economic operator is excluded from the procurement procedure if it within the last 2 years has been subject to any of the exclusion grounds listed in Sections 136(1)(3) and 137(1)(2-3) of the Danish Public Procurement Act.

The Contracting Authority can accept the following documentation in relation to the exclusion grounds in Sections 135(1), 135(3) and 137(1)(2) of the Danish Public Procurement Act (in order of priority):

- 1) Extracts from the relevant register or similar documents issued by a competent judicial or administrative authority or certificates issued by the competent Authority in the country referred to as documentation that the tenderer is not subject to the grounds for exclusion stipulated in Sections 135(1), 135(3) and 137(1)(2);
- 2) A declaration on oath (only if such extracts, certificates or similar documents are not issued in the country where the economic operator is established, or where the documentation does not cover all the grounds for exclusion stipulated in Sections 135(1), 135(3) and 137(1)(2) entirely);
- 3) A solemn declaration made by the person concerned before a competent judicial or administrative authority, a notary or a competent professional or trade body, in the country of origin or in the country where the economic operator is established (only if there is no provision for declarations on oath in the country where the economic operator is established).

Thus, the Contracting Authority cannot accept e.g. a solemn declaration made before a notary if there can be issued a certificate by the competent authority in the country where the economic operator is established. Moreover, the Contracting Authority cannot accept self-declarations or similar declarations issued by the economic operator or the person concerned as documentation in relation to the exclusion grounds.

Economic operators can identify the relevant documentation using the online platform e-Certis: <https://ec.europa.eu/growth/tools-databases/ecertis/>

Economic operators are encouraged to submit all necessary documentation as early as possible.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

In Part IV.B of the ESPD, the economic operator must fill in its average yearly turnover for the last 2 financial years available (where the economic operator can present annual reports).

If the economic operator consists of a group of economic operators (e.g. a consortia or joint venture) or if the economic operator relies on the capacity of other entities, each involved economic operator or entity must submit a completed ESPD.

When an economic operator is participating in the procurement procedure together with others (e.g. a consortia or joint venture) or if the economic operator relies on the economic and financial standing of other entities, the participating economic operators or the entities referred to are subject to joint and severable liability for the performance of the contract.

The Contracting Authority can accept annual reports or excerpts hereof or relevant statements from a bank or certified accountant as documentation in relation to the economic and financial standing.

When an economic operator is participating in the procurement procedure together with others or when an economic operator relies on the economic and financial standing of other entities, the economic operator must also provide statements of support or other documentation proving that the economic operator has access to the necessary economic and financial standing. The statements of support must establish a legal obligation for the party concerned and state that the involved economic operators or entities are subject to joint and severable liability for the performance of the contract.

Economic operators are encouraged to submit all necessary documentation as early as possible.

Minimum level(s) of standards possibly required:

The economic operator is required to have an average yearly turnover of minimum 8 000 000 DKK for the last 2 financial years available.

When the economic operator is participating in the procurement procedure together with others (e.g. a consortia or joint venture) or if the economic operator relies on the capacity of other entities, it is required that the participating economic operators or the economic operator and the entities referred to altogether meet the selection criteria.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

In Part IV.C of the ESPD, the economic operator must fill in a list of maximum 5 contracts entered into, ongoing or finalized within the last 3 years stating a description of the contract (nature and quantity of services from the economic operator and how they compare to the description of this procurement), amount (contract fee received by the economic operator), start date, end date and recipient (name and contact information).

If an economic operator has listed more than 5 contracts, the Contracting Authority will only read and assess the 5 most recent contracts listed (based on start date).

If the economic operator consists of a group of economic operators (e.g. a consortia or joint venture) or if the economic operator relies on the capacity of other entities, each involved economic operator or entity must submit a completed ESPD.

When an economic operator is participating in the procurement procedure together with others (e.g. a consortia or joint venture) or if the economic operator relies on the technical and professional abilities of other entities, the specific parts of the contract must be performed by the economic operators or entities with the required technical and professional abilities.

The Contracting Authority reserves the right to contact the recipients of services or require statements from the recipients, confirming that the economic operator has performed the listed contracts, as documentation in relation to the technical and professional ability.

When an economic operator is formed by a group of economic operators or relies on the technical and professional abilities of other entities, the economic operator must also provide statements of support or other documentation proving that the economic operator has access to the necessary technical and professional abilities. The statements of support must establish a legal obligation for the party concerned and state the parts of the contract to be performed by the party concerned.

Economic operators are encouraged to submit all necessary documentation as early as possible.

Minimum level(s) of standards possibly required:

Within the last 3 years, the economic operator is required to have performed (entered into, ongoing or finalized) minimum 1 relevant contract (as defined below).

As a relevant contract is considered independent evaluations of development programmes with a direct or indirect relevance for adaptation to climate change with a value attributable to the economic operator of more than 500 000 DKK. An 'independent evaluation' is an evaluation carried out for an evaluation unit of a development organization.

References related to evaluations of programmes with emphasis only on climate change mitigation (e.g. energy) will not be considered as relevant references. References related to reviews and monitoring work will also not be considered as relevant references. Neither will short-listing under a framework contract be considered a reference in itself.

When the economic operator is participating in the procurement procedure together with others (e.g. a consortia or joint venture) or if the economic operator relies on the capacity of other entities, it is required that the participating economic operators or the economic operator and the entities referred to altogether meet the selection criteria.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

Prior to the signing of the contract, the economic operator must present statements of availability from all non-permanent staff (e.g. project specific consultants or freelance consultants).

When an economic operator is participating in the procurement procedure together with others, the economic operator must present a joint statement from all the participating economic operators which identifies the member of the group who can act as an agent on behalf of the group with mandate to establish a legal obligation on behalf of the group in relation to the Contracting Authority.

The winning tenderer is to perform the contract in compliance with the Danida Anti-Corruption Policy and the principles of the UN Global Compact.
