Title: Framework agreement for consultancy and engineering design services for the Joint Project Arna - Stanghelle - second notice.

Description: The Norwegian Public Roads Administration Development Area West and Bane NOR, Division Development, Development Unit Mega Projects for the Joint Project Arna-Stanghelle (henceforth referred to as the "Contracting Authority") intends to procure a framework agreement (hereafter called the "framework agreement") with a tenderer (hereafter called the "supplier") for consultancy and engineering design services for FAS, see further point A.3.1 below. Both the Norwegian Public Roads Administration and Bane NOR will act as contracting authorities in accordance with the framework agreement, and thereby be able to make call-offs on the framework agreement separately or together. The aim of the procurement is to enter into a framework agreement for consultancy and engineering design services for the engineering design services for a new road and railway between Arna and Stanghelle/Helle. The framework agreement shall cover engineering design, advice and follow-up in the construction period in connection with the execution of the project. The procurement is for a framework agreement with one (1) tenderer for the procurement of consultancy and engineering design services for FAS. The framework agreement includes the preparation of a design basis for the entire project. Furthermore there is the preparation of the tender documentation for all the main contracts, which currently comprise both total, execution and interaction contracts, as well as follow-up during the construction period. In addition the framework agreement includes complete engineering design services for all work included in each execution contract, such as preparation of the work documentation, construction plan and follow-up during the construction period. Furthermore, participation in the project's collaboration contract is included.

Procedure identifier: f2367187-66b8-46a1-bcad-3257b313b84e

Internal identifier: 25/114874

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

Main features of the procedure: Type of procurement: Service procurements above the EEA threshold, cf. the supply regulations § 5-1 (2), cf. § 5-2 (1). Procurement procedure: Negotiated procedure after a prior notice, cf. utilities regulations § 9-1 (1).

### **2.1.1. Purpose**

Main nature of the contract: Services

Main classification (cpv): 71320000 Engineering design services

Additional classification (cpv): 71000000 Architectural, construction, engineering and inspection services, 71240000 Architectural, engineering and planning services, 71242000 Project and design preparation, estimation of costs, 71245000 Approval plans, working drawings and specifications, 71246000 Determining and listing of quantities in construction, 71248000 Supervision of project and documentation, 71310000 Consultative engineering and construction services, 71311000 Civil engineering consultancy services, 71311100 Civil engineering support services, 71311200 Transport systems consultancy services, 71311210 Highways consultancy services, 71311220 Highways engineering services, 71311230 Railway engineering services, 71312000 Structural engineering consultancy services, 71313000 Environmental engineering consultancy services, 71313100 Noise-control consultancy services , 71313400 Environmental impact assessment for construction, 71313410 Risk or hazard assessment for construction, 71313420 Environmental standards for construction, 71313430 Environmental indicators analysis for construction, 71313440 Environmental Impact Assessment (EIA) services for construction, 71313450 Environmental monitoring for construction, 71318000 Advisory and consultative engineering services, 71322000 Engineering design services for the construction of civil engineering works, 71322100 Quantity surveying services for civil engineering works, 71322200 Pipeline-design services, 71322500 Engineering-design services for traffic installations, 71323100 Electrical power systems design services, 71330000 Miscellaneous engineering services, 71332000 Geotechnical engineering services, 71351220 Geological consultancy services, 71351500 Ground investigation services, 71351910 Geology services, 71420000 Landscape architectural services, 71500000 Construction-related services, 71530000 Construction consultancy services

### **2.1.2. Place of performance**

Country subdivision (NUTS): Vestland (NO0A2)

Country: Norway

Additional information: Arna - Stanghelle

### **2.1.3. Value**

Estimated value excluding VAT: 2 200 000 000,00 NOK

### **2.1.4. General information**

Additional information: Tender conference: 15 May 2025. Justification for use of the exclusionary provision in the utilities regulations § 7-9 (5); The procurement of a framework agreement for consultancy and engineering design services for FAS is assessed to be covered by the exclusionary provision in the Utilities Regulations § 7-9 (5), in which exceptions are made from the requirement to weight climate and environment considerations with a minimum of thirty percent when the "procurement is of its nature has a climate footprint and an environmental impact that is immaterial". The nature of the procurement is consultancy services, specifically consultancy and engineering design services within building and construction (hereafter called "consultancy services"). The nature of the procurement involves

the execution of quantitative and qualitative analyses (consultancy), development of systems (engineering design) etc. The consultancy service will be carried out as desk work and/or by observations/site inspections (on-site surveys). The work can include some, but typically limited travel activities. The main service is the consultant's work effort. In order to map the climate footprint and other forms of environmental impact from the nature of consultancy services, the contracting authority expects that a consultant's climate footprint and environmental impact will be equal to the load from an average permanent employee. It is, thus, the consultant's need for office space and office equipment, the energy consumption in the building that the relevant jobs are in, travel activities for work, and waste generation that contributes to the employee's climate footprint and environmental impact. The contracting authority estimates that none of the above elements fall within the nature of the procurement, which is a consultancy service. The elements connected to the nature of the procurement, i.e. the consultancy and engineering design services and the digital documents (text documents, models, drawings etc.) that shall be produced, result in immaterial climate footprint and an immaterial environmental impact. The contracting authority will, on the basis of the above, use the exclusion provisions in the supply regulations § 7-9 (5), as the procurement is of its nature has a climate footprint and an environmental impact that is immaterial. The justification for the exception provision applying to the procurement in relation to this is stated above. The contracting authority is, thus, exempted from the obligation to weight the climate and environment by 30%, cf. the supply regulations § 7-9 (2).

Legal basis:

Directive 2014/25/EU

#### **2.1.6. Grounds for exclusion**

Analogous situation like bankruptcy under national law: Is the supplier in a situation where he has been forced debt arrangement? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Bankruptcy: Is the tenderer in a bankruptcy situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Corruption: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a enforceable verdict has been convicted of corruption by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Corruption as defined in Article 3 of the Convention on Combating Corruption, Involving European Communities or European Union Member States (EUT C 195 of 25.6.1997, s. 1), and in Article 2, point 1, in the Council's framework decision 2003/568/RIA of 22 July 2003 on combating corruption in the private sector (EUT L 192 of 31.7.2003, p. 54). This rejection reason also includes corruption as defined in national law for the contracting authority or supplier.

Arrangement with creditors: Is the supplier in a situation where he has been forced debt arrangement? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Participation in a criminal organisation: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted verdict of participation in a criminal organisation by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Participation in a criminal organisation as defined in Article 2 of the Council's framework decision 2008/841/RIA of 24 October 2008 on control of organised crime (EUT L 300 of 11.11.2008, p. 42)

Agreements with other economic operators aimed at distorting competition: Has the tenderer entered into agreement(s) with other tenderers with the intention of turning the competition?

Breaching of obligations in the fields of environmental law: Is the tenderer aware of breaches of environmental provisions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Money laundering or terrorist financing: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of money laundering or financing terrorism by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Money laundering or financing terrorism As defined in Article 1 of the European Parliament and Council Directive 2005/60/EF of 26 October 2005 on preventive measures against the use of the financial system for money laundering and financing terrorism (EUT L 309 of 25.11.2005, p. 15).

Fraud: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, at the time a legally convicted of fraud has been convicted of fraud by a verdict handed down not more than five years ago, or a rejection period determined directly in the judgement that still applies? Fraud included in Article 1 of the Convention on protection of the Financial Interests of the European Communities (EFT C 316 of 27.11.1995, p. 48).

Child labour and other forms of trafficking in human beings: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of child labour and other forms of human trafficking by a verdict handed down no more than five years ago, or a rejection period determined directly in the judgement that still applies? Child labour and other forms of human trafficking as defined in Article 2 of the European Parliament and council directive 2011/36/EU of 5. 1 April 2011 on the prevention and control of human trafficking and the protection of its victims and for compensation of the Council's framework decision 2002/629/RIA (EUT L 101 of 15.4.2011, p. 1).

Insolvency: Is the tenderer in an insolvency situation? Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Breaching of obligations in the fields of labour law: Is the tenderer aware of breaches of provisions on working conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Assets being administered by liquidator: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures

for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Guilty of misrepresentation, withheld information, unable to provide required documents and obtained confidential information of this procedure: Have the tenderer: a) given grossly incorrect information when notifying the information required to verify that there is no basis for rejection, or of the qualification requirements being met, b) failed to provide such information, c) subject to immediately submitting the supporting documents requested by the Contracting Authority, or d) improperly affecting the Contracting Authority's decision process to acquire confidential information that could give this an unlawful advantage in connection with competition, or negligently has given misleading information that can have a significant influence on decisions on rejection, selection or award?

Purely national exclusion grounds: Approved procedures for staffing conditions Does the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, approved procedures for some of the punishable conditions mentioned above, j.f. the Procurement Regulations § 24-2, (2) paragraph, a-f? Serious errors that cause doubt about his professional integrity Has the tenderer otherwise committed serious errors that cause doubt about his professional integrity, cf.f. the procurement regulations § 24-2, (3) letter in?

Conflict of interest due to its participation in the procurement procedure: Are tenderers aware of a conflict of interest as stated in national law, the relevant notice or procurement documents?

Direct or indirect involvement in the preparation of this procurement procedure: Has the tenderer or an entity associated with the supplier advised the contracting authority or in another way been involved in the planning of the competition?

Guilty of grave professional misconduct: Has the tenderer committed serious errors in professional practice? If relevant, see the definitions in national law, the relevant notice or procurement documents.

Early termination, damages or other comparable sanctions: Has the tenderer committed significant breaches of contract in connection with the fulfilment of a previous public contract, a previous contract with a public contracting authority or a previous concession contract, where the breach has led to the cancellation of the contract, compensation or other similar sanctions?

Breaching of obligations in the fields of social law: Is the tenderer aware of breaches of provisions on social conditions as stated in national law, the relevant notice or procurement documents or Article 18 (2) of Directive 2014/24/EU.

Payment of social security contributions: Have tenderers failed to fulfil all their social security obligations in the country where they are established and in their member state, if this is a different country than what he is established in?

Business activities are suspended: Specify why, under the mentioned circumstances, one is able to carry out the contract, considering the current national provisions and measures for continuing the business activities? It is not necessary to provide this information if rejection of tenderers made mandatory in accordance with the current national law without the possibility for exceptions.

Payment of taxes: Has the tenderer not fulfilled his tax and duty obligations in the country in which he is established, and in the contracting authority's member state, if this is a different country than what he is established in?

Terrorist offences or offences linked to terrorist activities: Is the tenderer himself or a person, who is a member of the tenderer's administration, management or supervisory body, or has the competence to represent or control or make decisions in such bodies, in the event a legal verdict has been convicted of acts of terrorism or criminal acts connected to terrorist activities

by a verdict handed down no more than five years ago, or a rejection period set out directly in the judgement that still applies? Acts of terrorism or criminal acts relating to terrorist activity as defined in Article 1 and 3 of the Council's framework decision 2002/475/RIA of 13 June 2002 on combating terrorism (EFT L 164, af 22.6.2002, p. 3). This rejection reason also includes incitement to, participation or attempts to commit such actions as included in Article 4 in the mentioned framework decision.

## 5. Lot

### 5.1. Lot: LOT-0000

Title: Framework agreement for consultancy and engineering design services for the Joint Project Arna - Stanghelle - second notice.

Description: The Norwegian Public Roads Administration Development Area West and Bane NOR, Division Development, Development Unit Mega Projects for the Joint Project Arna-Stanghelle (henceforth referred to as the "Contracting Authority") intends to procure a framework agreement (hereafter called the "framework agreement") with a tenderer (hereafter called the "supplier") for consultancy and engineering design services for FAS, see further point A.3.1 below. Both the Norwegian Public Roads Administration and Bane NOR will act as contracting authorities in accordance with the framework agreement, and thereby be able to make call-offs on the framework agreement separately or together. The aim of the procurement is to enter into a framework agreement for consultancy and engineering design services for the engineering design services for a new road and railway between Arna and Stanghelle/Helle. The framework agreement shall cover engineering design, advice and follow-up in the construction period in connection with the execution of the project. The procurement is for a framework agreement with one (1) tenderer for the procurement of consultancy and engineering design services for FAS. The framework agreement includes the preparation of a design basis for the entire project. Furthermore there is the preparation of the tender documentation for all the main contracts, which currently comprise both total, execution and interaction contracts, as well as follow-up during the construction period. In addition the framework agreement includes complete engineering design services for all work included in each execution contract, such as preparation of the work documentation, construction plan and follow-up during the construction period. Furthermore, participation in the project's collaboration contract is included.

Internal identifier: 25/114874

#### 5.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 71320000 Engineering design services

Additional classification (cpv): 71000000

Architectural, construction, engineering and inspection services, 71240000

Architectural, engineering and planning services, 71242000

Project and design preparation, estimation of costs, 71245000

Approval plans, working drawings and specifications, 71246000

Determining and listing of quantities in construction, 71248000

Supervision of project and documentation, 71310000

Consultative engineering and construction services, 71311000

Civil engineering consultancy services, 71311100 Civil engineering support services, 71311200

Transport systems consultancy services, 71311210 Highways consultancy services, 71311220

Highways engineering services, 71311230 Railway engineering services, 71312000

Structural engineering consultancy services, 71313000  
Environmental engineering consultancy services, 71313100 Noise-control consultancy services  
, 71313400 Environmental impact assessment for construction, 71313410  
Risk or hazard assessment for construction, 71313420  
Environmental standards for construction, 71313430  
Environmental indicators analysis for construction, 71313440  
Environmental Impact Assessment (EIA) services for construction, 71313450  
Environmental monitoring for construction, 71318000  
Advisory and consultative engineering services, 71322000  
Engineering design services for the construction of civil engineering works, 71322100  
Quantity surveying services for civil engineering works, 71322200 Pipeline-design services,  
71322500 Engineering-design services for traffic installations, 71323100  
Electrical power systems design services, 71330000 Miscellaneous engineering services,  
71332000 Geotechnical engineering services, 71351220 Geological consultancy services,  
71351500 Ground investigation services, 71351910 Geology services, 71420000  
Landscape architectural services, 71500000 Construction-related services, 71530000  
Construction consultancy services

Options:

Description of the options: The framework agreement will be valid for 4 years from when the contract is signed. The contracting authority has an option to extend the contract for a further 1+1+1+1 year. The maximum contract length is 8 years, cf. utilities regulations § 22-1 (4). This does not, however, prevent the actual delivery connected to call-offs before the framework agreement expires, after the duration of the framework agreement has expired. Options are further regulated in chapter C2, point C.2.1.2. An assessment of whether an option to extend the framework agreement shall be taken up well before the expiry of the framework agreement period. The triggering of the option for extension will be notified in writing to the tenderer at the latest three (3) months before the framework agreement expires. The contracting authority is free to trigger one or several of the options within the above stated deadlines. See the tender documentation chapter C2, point C.2.1.2.

### 5.1.2. Place of performance

Country subdivision (NUTS): Vestland (NO0A2)

Country: Norway

Additional information: Arna - Stanghelle

### 5.1.3. Estimated duration

Duration: 8 Years

### 5.1.4. Renewal

Maximum renewals: 4

The buyer reserves the right for additional purchases from the contractor, as described here: The framework agreement will be valid for 4 years from when the contract is signed. The contracting authority has an option to extend the contract for a further 1+1+1+1 year. The maximum contract length is 8 years, cf. utilities regulations § 22-1 (4). This does not, however, prevent the actual delivery connected to call-offs before the framework agreement expires, after the duration of the framework agreement has expired. Options are further regulated in chapter C2, point C.2.1.2. An assessment of whether an option to extend the framework agreement shall be taken up well before the expiry of the framework agreement period. The triggering of the option for extension will be notified in writing to the tenderer at the latest three

(3) months before the framework agreement expires. The contracting authority is free to trigger one or several of the options within the above stated deadlines. See the tender documentation chapter C2, point C.2.1.2.

#### **5.1.5. Value**

Estimated value excluding VAT: 2 200 000 000,00 NOK

#### **5.1.6. General information**

Reserved participation: Participation is not reserved.

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

Additional information: Tender conference: 15 May 2025. Justification for use of the exclusionary provision in the utilities regulations § 7-9 (5); The procurement of a framework agreement for consultancy and engineering design services for FAS is assessed to be covered by the exclusionary provision in the Utilities Regulations § 7-9 (5), in which exceptions are made from the requirement to weight climate and environment considerations with a minimum of thirty percent when the "procurement is of its nature has a climate footprint and an environmental impact that is immaterial". The nature of the procurement is consultancy services, specifically consultancy and engineering design services within building and construction (hereafter called "consultancy services"). The nature of the procurement involves the execution of quantitative and qualitative analyses (consultancy), development of systems (engineering design) etc. The consultancy service will be carried out as desk work and/or by observations/site inspections (on-site surveys). The work can include some, but typically limited travel activities. The main service is the consultant's work effort. In order to map the climate footprint and other forms of environmental impact from the nature of consultancy services, the contracting authority expects that a consultant's climate footprint and environmental impact will be equal to the load from an average permanent employee. It is, thus, the consultant's need for office space and office equipment, the energy consumption in the building that the relevant jobs are in, travel activities for work, and waste generation that contributes to the employee's climate footprint and environmental impact. The contracting authority estimates that none of the above elements fall within the nature of the procurement, which is a consultancy service. The elements connected to the nature of the procurement, i.e. the consultancy and engineering design services and the digital documents (text documents, models, drawings etc.) that shall be produced, result in immaterial climate footprint and an immaterial environmental impact. The contracting authority will, on the basis of the above, use the exclusion provisions in the supply regulations § 7-9 (5), as the procurement is of its nature has a climate footprint and an environmental impact that is immaterial. The justification for the exception provision applying to the procurement in relation to this is stated above. The contracting authority is, thus, exempted from the obligation to weight the climate and environment by 30%, cf. the supply regulations § 7-9 (2).

#### **5.1.9. Selection criteria**

Criterion:

Type: Economic and financial standing

Name: The tenderer's economic and financial capacity

Description: Tenderers shall have sufficient economic and financial capacity to be able to fulfil the contract obligations. The tenderer is required to have an annual minimum turnover of NOK 300 million in the last three financial years. Tenderers are required to be credit worthy (credit worthy without security requirements).

Use of this criterion: Used

Criterion:

Type: Suitability to pursue the professional activity

Name: The organisational and legal position of the tenderer.

Description: Tenderers shall be a legally established company or consist of a community of suppliers who are legally established companies. The requirement also applies companies that the tenderer will use, cf. chapter B2, point B.2.4.1. Tenderers shall be registered in the Electrical Company Register in accordance with the regulations on electrical companies etc. dated 19 June 2013 no. 739 § 3, as approved. electrical companies for engineering design of electrical installations connected to roads and railways. The tenderer, or other entities the tenderer. relies on fulfilment of the qualification requirements, shall not be a unit that is affected by the ban on the award of public contracts in § 8n in sanctions regulations Ukraine (FOR-2014-08-15-1076).

Use of this criterion: Used

Criterion:

Type: Technical and professional ability

Name: The tenderer's technical and professional qualifications.

Description: Tenderers shall have sufficient experience and competence from consultancy and engineering design services for tunnels, road and railway projects of equivalent nature and degree of difficulty. Tenderers shall have sufficient capacity, in the form of human and technical resources, to execute Contract.

Use of this criterion: Used

Criterion:

Type: Technical and professional ability

Name: The tenderer's quality, environment and security management system.

Description: Tenderers shall have a documented and implemented quality assurance system (quality management system), which is based on relevant European standard series, which are certified by accredited bodies, for example NS-EN ISO 9001:2015. The tenderer shall have routines and systems that ensure that environmental considerations and environmental measures are taken into account in the execution of the contract, including the individual deliveries in accordance with Contract. Tenderers are required to have documented and implemented environmental management system, which is based on relevant European standard series, which is certified by accredited bodies, for example NS-EN ISO. 14001:2015. Tenderers shall have a documented and implemented. internal control system (security management system) which also includes security.

Use of this criterion: Used

Criterion:

Type: Technical and professional ability

Name: Selection Criteria - the best qualified principle

Description: For this competition and based on received requests for participation in the competition, the Contracting Authority will select a minimum of three (3) and a maximum of six (6) tenderers who will be invited to submit a tender and participate in the negotiations, cf. the tender documentation chapter B3. The contracting authority can choose fewer tenderers than stated above if there are not a sufficient number of qualified tenderers, cf. the supply regulations § 12-7 (3). The selection among the qualified tenderers who are invited to submit tenders will be based on the contracting authority's evaluation of which tenderers are deemed to be the best qualified on the basis of the set requirements for the tenderer's technical and professional qualifications, cf. chapter B2, point B2.2.4. The assessment will be based on

documentation submitted relating to fulfilment of the set requirements for the tenderer's technical and professional qualifications, cf. chapter B2, point B.2.2.4. The contracting authority will give written notification about the selection of the tenderers who are invited to submit a tender. Written notification will also be given to the tenderers who will not be chosen to submit a tender together with a short justification, cf. the supply regulations § 12-7 (4).

Use of this criterion: Used

The criteria will be used to select the candidates to be invited for the second stage of the procedure

Information about the second stage of a two-stage procedure:

Minimum number of candidates to be invited for the second stage of the procedure: 3

Maximum number of candidates to be invited for the second stage of the procedure: 6

#### 5.1.10. Award criteria

Criterion:

Type: Price

Name: K1: Tender Sum

Description: Under this award criteria, the tenderer's tender sum will be assessed. When assessing, the total offered price stated in chapter E2 Price Form point E2.2 "Tender sum excluding VAT", will be assessed.

Criterion:

Type: Quality

Name: K2: Description of resolution

Description: Under this award criteria, the tenderer's description of the execution of assignments under the framework agreement, including interaction and coordination with the contracting authority, contractors, other engineering designers and other third parties (multi-disciplinary cooperation), as well as the identification and handling of challenges and risks will be assessed. The contracting authority will, on the basis of the stated documentation requirements, undertake a qualitative and comprehensive evaluation of the tenderer's solution description for the execution of assignments under the framework agreement.

Criterion:

Type: Quality

Name: K3: Organisation and offered key personnel (project team).

Description: Under this award criteria, the quality of the tenderer's organisation will be assessed. The contracting authority will undertake an overall assessment of the tenderer's offered organisation. The quality of the offered key personnel will be assessed under this award criteria. With a view to evaluating the service quality, the contracting authority will undertake an assessment of each individual the offered key person's experience and competence connected to the intended role in the execution of the framework agreement, as well as an overall assessment of the project team's composition (project team). Key personnel means, in this connection: • Assignment Manager, • Call-offs responsible for each call-off, • Managers of the following disciplines (specialist manager/discipline manager); • Construction • Site engineering, • Tunnel • Road trade, • Track subjects, • Geofag, • Electro and telecommunication for road and railway subjects • Building Information Modelling (BIM Coordinator), • Outer environmental studies, • RAMS • Water and sewage disciplines, • Process descriptions. The assignment manager's competence and experience will be assigned particular emphasis when evaluating the tenders under this award criteria.

Criterion:

Type: Quality

Name: Selection Criteria - the best qualified principle

Description: For this competition and based on received requests for participation in the competition, the Contracting Authority will select a minimum of three (3) and a maximum of six (6) tenderers who will be invited to submit a tender and participate in the negotiations, cf. the tender documentation chapter B3. The contracting authority can choose fewer tenderers than stated above if there are not a sufficient number of qualified tenderers, cf. the supply regulations § 12-7 (3). The selection among the qualified tenderers who are invited to submit tenders will be based on the contracting authority's evaluation of which tenderers are deemed to be the best qualified on the basis of the set requirements for the tenderer's technical and professional qualifications, cf. chapter B2, point B.2.2.4. The assessment will be based on documentation submitted relating to fulfilment of the set requirements for the tenderer's technical and professional qualifications, cf. chapter B2, point B.2.2.4. The contracting authority will give written notification about the selection of the tenderers who are invited to submit a tender. Written notification will also be given to the tenderers who will not be chosen to submit a tender together with a short justification, cf. the supply regulations § 12-7 (4). Description of the method to be used if weighting cannot be expressed by criteria: Tenderers who have been invited to participate in the competition and have submitted an otherwise valid tender will have their tenders evaluated in accordance with the set award criteria below, cf. point B.3.6.2 flg. A contract will be awarded to the tenderer who has submitted the tender, which gives the best relationship between price and quality, cf. the supply regulations § 14-1 (1). The following award criteria will form the basis of the evaluation: K1: Tender sum, based on the stated prices in the price form. K2: Solution description K3: Organisation and offered key personnel (project team). The contracting authority will assess the tenders in the evaluation on the basis of the award criteria and calculate each of the tenders' competition sum. The tender with the lowest competition sum will be the tender, which gives the best relationship between price and quality and the tenderer with the lowest tender sum will therefore be awarded the contract.

#### **5.1.11. Procurement documents**

Address of the procurement documents: [https://eu.eu-supply.com/app/rfq/rwlenrance\\_s.asp?PID=430324&B=](https://eu.eu-supply.com/app/rfq/rwlenrance_s.asp?PID=430324&B=)
