In addition, call-offs can be made for:

- external quality assurance of projects with a lower cost limit;
- external quality assurance of projects with government or other public partial financing, and /or government or other public engagement in the form of liability; etc.,
- assistance with external quality assurance of other parts of the projects. There can be quality assurance in the initiation phase or the implementation phase,
- external quality assurance of requirement plans and standard requirements specification, or a need to carry out supplementary analyses, reviews or practical trials in order to update or improve the decision and management basis, amongst other things;
- assignments connected to specific parts of the projects' documents and deliveries, as well as quality assurance of the contracting authority's and any management group's follow-up of the project;
- assistance with the further development and implementation of and compliance with the municipality's project methodology.

Parallel framework agreement signed with 4-7 tenderers.

The estimate is based on approx. 15-20 assignments a year for QA1 or QA2, with individual values of between approx. NOK 200 000 and NOK 1 000 000 excluding VAT.
