II.2.4. Description of the procurement

TU Dublin is seeking tenders for the provision of Cloud hosting, technical support and web development services for the TU Dublin website, intranet and CMS.

The TU Dublin website and intranet are built on the Terminalfour web content management system and are currently hosted on Amazon Web Services (AWS). Suppliers who tender for this competition must be able to provide technical support and web development services for the Terminalfour web content management system.

A range of templates and elements built with web technologies such as HTML, CSS and JSON are in use across the CMS and University websites. The University web team provide support and development services to the University. The web team manage and support the network of distributed editors across the TU Dublin. Over 200 staff are trained as CMS editors and publishers on the CMS and update the website on a daily basis.

TU Dublin is now seeking a request for tender for cloud hosting services, technical support and web development services for the existing TU Dublin website and CMS platform Terminalfour on an annual basis.

II.2.5. Award criteria
