2.1. Procedure

Title: TELECOM Cabling Substation 2026

Description: ELIA Asset (hereinafter “Elia”) is launching a European tendering procedure with the objective of concluding a framework agreement for internal cabling works and related supplies within Elia’s electrical substations. The scope of this procurement covers cabling and connectivity solutions used inside substations to support protection, control, communication, and auxiliary systems that are critical for the safe and reliable operation of the electricity transmission network. The tender procedure is structured into two separate Lots, reflecting the different cabling technologies involved. One Lot relates to copper#based cabling solutions, while the other Lot relates to fiber optic cabling solutions. Further details on the scope of each Lot will be provided in the tender documents. The framework agreement resulting from this procedure will enable Elia to place call#off orders over its duration for works and supplies to be executed in existing and future substations, in accordance with Elia’s technical standards, safety requirements and operational constraints.
