The procurement is related to a project and/or programme financed by European Union funds: no

## **II.2.14. Additional information**

A contract will be signed with one tenderer for the assignment. The framework agreement period is 2 years. The contracting authority shall have the option to prolong the framework agreement for a further 1 + 1 year, to a maximum total period of 4 years.

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Qualification requirement #1: Tenderers must be legally established companies.

Documentation requirement #1: Norwegian tenderers: Company Registration Certificate.

Foreign tenderers: Confirmation that the tenderer is registered in a trade register or company register in accordance with the law in the country where the tenderer is established.

Qualification requirement #2: Tenderers must have complied with their obligations related to tax and payroll tax.

Documentation requirement #2: - A certificate from the tax collector (RF-1316). The certificate must not be more than 6 months old, from the tender deadline. Any arrears and other notes must be explained. Foreign companies must submit equivalent certificates demonstrating that they have their tax and duty payments in order.

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Qualification requirement: Tenderers must have sufficient economic and financial strength to comply with the contractual obligations.

Documentation requirement: A credit rating from a publicly certified credit rating institution. The assessment must contain information regarding creditworthiness. The credit rating must not be older than six months from the tender deadline. The result must be given in the documentation as a graded value (letters or numbers) on a defined scale. Newly started companies which are unable to provide a relevant credit appraisal and/or the annual accounts, can present alternative documentation. If a tenderer has valid reasons for not being able to provide the documentation requested by the contracting authority, the tenderer can prove his economic and financial capacity with any other document that the contracting authority deems suitable.

Minimum level(s) of standards possibly required:

Creditworthiness with no requirement for guarantees will be sufficient.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

Qualification requirement #1: Tenderers must have sufficient capacity and have a good implementation ability that demonstrates that the tenderer can fulfil the contract. Sufficient capacity means that the tenderer must be able to provide services within the scope that is outlined in the tender documentation. The tenderer and the tenderer's persons (contact person and executors) are required to have fire prevention competence.

Documentation requirement #1: A brief, general description of the business, including:

An account of the company's business concept and core competence related to the scope of the delivery. An overview of the company's history, organisation and ownership, as well as a description of the current business. A description of how the tenderer is organised for the

execution of this contract, including a list of personnel the tenderer has at disposal for fulfilment of the contract area requested. An account of fire prevention competence (e.g., fire engineer, firefighter, or similar).

Qualification requirement #2: Tenderers must have good experience from similar deliveries, demonstrating that they can fulfil the contract. Document experience from similar contracts.

Documentation requirement #2: Overview of relevant deliveries in the last 3 years. Relevant assignments mean framework agreement deliveries that, in content and scope, are comparable with what is requested in this contest. The overview must, as a minimum, contain:  
- A brief description of the delivery.

Date of implementation. Scope of the contract in monetary amount. Name and telephone number of the reference person at the contracting authority. The contracting authority must have the possibility of contacting the stated contact persons.

Attach the completed annex 4 reference form.

Qualification requirement #3: Tenderers must have an environmental management system that describes how the company carries out and continuously limits its environmental impact to ensure that the tenderer is suitable for fulfilling the contract.

Documentation requirement #3: A description of the company's environmental management system, or certification from a relevant and recognised third party can also be submitted.

Qualification requirement #4: Tenderers must have the required professional qualifications /certifications. Tenderers are required to have knowledge and experience of relevant systems within internal control/MOMD.

Documentation requirement #4: A description must be given of how the tenderer complies, and will comply with relevant rules for the entire contract period. This involves, for example, requirements for development classes, certification for the right to be responsible, etc., in, e.g., the Building Application Regulations (SAK10) and the Planning and Building Act.

Other rules, as well as any changes to the rules, must also be complied with. A short description must be given of the MOMD system that the tenderer has knowledge and experience of, including the three most used systems.

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Open procedure

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**
