The contract involves joint procurement

I.3. Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at: <https://permalink.mercell.com/88122384.aspx>

Additional information can be obtained from the abovementioned address

Tenders or requests to participate must be submitted electronically via: <https://permalink.mercell.com/88122384.aspx>

I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Health

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Procurement of proton therapy equipment and an operation, maintenance and support contract for the proton therapy centres at the Radium Hospital in Oslo and at Haukeland University Hospital in Bergen

Reference number: 2018/865

II.1.2. Main CPV code

33151000 Radiotherapy devices and supplies

II.1.3. Type of contract

Supplies

II.1.4. Short description

The Norwegian government has decided that 2 proton therapy centres shall be established in Norway. The 2 centres will be established at the Norwegian Radium Hospital, Oslo University Hospital (OUS) in Oslo and at Haukeland University Hospital, Helse Bergen HF. This procurement is a joint purchase of proton therapy equipment and operation, maintenance and support services of the equipment for the projects in Oslo and Bergen. The Tender shall contain the equipment for both centers including delivery, installation, mounting and testing, including the operation, maintenance and support services of the centers.

The proton therapy center in Oslo will include: 3 gantry treatment rooms and 1 research room with fixed beam.

The proton therapy center in Bergen will include: 1 gantry treatment rooms and 1 research room with fixed beam.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

33150000 Radiotherapy, mechanotherapy, electrotherapy and physical therapy devices,

38410000 Metering instruments, 48180000 Medical software package, 50421000 Repair and maintenance services of medical equipment, 51413000 Installation services of radiotherapy equipment

II.2.3. Place of performance

NUTS code: NO011 Oslo

Main site or place of performance: Radium Hospital in Oslo and Haukeland University Hospital in Bergen.

II.2.4. Description of the procurement

The proton centers in Oslo and Bergen aim to treat a total of 290 patients per treatment room /per year at full capacity, which will lead to a total capacity of 1 160 proton therapy patients per year in Norway. This will lead to the integration of proton therapy into the public health care services for radiation therapy in cancer treatment in Norway. The planned operation hours are 13 hours per day, 240 days per year, and at average 26 treatment fractions per patients (one treatment fraction is estimated at 25 minutes on average). The establishment of a solution for safe, effective and state-of-the-art proton therapy for these patients is the overall aim of the procurement.

In addition, each of the proton therapy centres will include a dedicated research room for basic and pre-clinical research, which will also serve as a reserve capacity for patient treatment in the way that it should be possible to install a full gantry solution in the room at a later stage, if needed. Hence the size of the bunker will be the same as the bunkers for the clinical gantries, and the fixed beam initially installed could be of e.g. horizontal or vertical orientation.

The proton therapy facilities in Oslo and Bergen will be planned in close relation to the existing cancer clinics at the respective sites in order to optimize seamless and efficient workflow for radiation therapy. The aim is that the proton therapy centres will be able to facilitate the most optimum use of proton therapy in multi-modal cancer treatment, where a combination of chemotherapy, surgery and the best available radiation therapy for cancer patients is included. The aim is that the proton therapy center should accommodate the optimal use of proton therapy in a multi-modality approach to the treatment of cancer; combining chemotherapy, surgery and the best available radiation therapy to cancer patients.

The proton therapy project in Oslo is closely connected to the timeline for the new clinical building at the hospital. The aim is to start patient treatments in Oslo in 2023 and in Bergen in 2024.

The purchase will not include the following: Oncology Information System (OIS), Treatment Planning System (TPS), CT, MRI and PET scanners for dose planning.

Options: The Contracting Authority will have an option to expand the contract with the installation of an extra gantry at a later date.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/04/2019 End: 31/12/2099

This contract is subject to renewal: yes

Description of renewals:

The Contracting Authority has the right to extend the Operation, Maintenance and Support contract ("OMS") for Oslo University Hospital for 5 years after the first 5 contract years.

The Contracting Authority has the right to extend the Operation, Maintenance and Support contract (“OMS”) for Helse Bergen HF for 5 years after the first 5 contract years.

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged minimum number: 3 Maximum number: 5 Objective criteria for choosing the limited number of candidates:

See the competition rules, Section 5.5 Qualification Criteria and Selection of Tenderers.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

The Contracting Authority has an option to expand the contract with the installation of an extra gantry at a later date.

The Contracting Authority has the right to extend the Operation, Maintenance and Support contract (“OMS”) for Oslo University Hospital for 5 years after the first 5 contract years.

The Contracting Authority has the right to extend the Operation, Maintenance and Support contract (“OMS”) for Helse Bergen HF for 5 years after the first 5 contract years.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: no

II.2.14. Additional information

All written and oral communication must be in English. The qualification application and tender, including all annexes, must be submitted in English. Additional information, such as brochures and test studies can be written in Norwegian, a Scandinavian language or English.

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

See the qualification requirements in the tender documentation, Part I Competition Rules Point 5.1.

III.1.3. Technical and professional ability

Selection criteria as stated in the procurement documents

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

See the tender documentation, Part II and Part III Operation, Maintenance and Support contract (“OMS”).

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Competitive procedure with negotiation

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.4. Information about reduction of the number of solutions or tenders during negotiation or dialogue

Recourse to staged procedure to gradually reduce the number of solutions to be discussed or tenders to be negotiated

IV.1.5. Information about negotiation

The contracting authority reserves the right to award the contract on the basis of the initial tenders without conducting negotiations

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2017/S 211-439731](#)

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 13/08/2018 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

Date: 21/08/2018

IV.2.4. Languages in which tenders or requests to participate may be submitted

English

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Tender must be valid until: 31/05/2019

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about electronic workflows

Electronic invoicing will be accepted

VI.3. Additional information

All written and oral communication must be in English. The qualification application and tender, including all annexes, must be submitted in English. Additional information, such as brochures and test studies can be written in Norwegian, a Scandinavian language or English.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Helse Sør-øst RHF

Town: Postboks 404

Country: Norway

VI.5. Date of dispatch of this notice

02/07/2018
