Water

---

**Section II: Object**

**II.1. Scope of the procurement**

**II.1.1. Title**

Framework agreement for the operation and maintenance of high voltage installations at Oset

Reference number: 179/2017

**II.1.2. Main CPV code**

09310000 Electricity

**II.1.3. Type of contract**

Services

**II.1.4. Short description**

VAV owns high voltage installations that are connected to the water treatment facility at Oset. The type of high voltage installations at Oset must be inspected in accordance with the Act on the Inspection of Electrical Installations and Electrical Equipment (the Electricity Inspection Act). VAV is the owner of the actual installation, whilst Hafslund owns the concession that the installation was constructed under. The network company (Hafslund) is, pursuant to the Electricity Inspection Act, obliged to have the electrical installations inspected within its supply

area and VAV can, as the owner of the installation, contract a tenderer to take on the responsibility for operation and maintenance.

VAV would like to enter into a contract with a tenderer who can take on responsibility for the operation and maintenance of the high voltage installations.

See the requirement specifications (annex 1) for further details on the assignment.

#### **II.1.6. Information about lots**

This contract is divided into lots: no

#### **II.1.7. Total value of the procurement**

Value excluding VAT: 4 569 600,00 NOK

### **II.2. Description**

#### **II.2.2. Additional CPV code(s)**

45315100 Electrical engineering installation works, 45311100 Electrical wiring work, 45317200 Electrical installation work of transformers, 45317300 Electrical installation work of electrical distribution apparatus, 51110000 Installation services of electrical equipment, 51112000 Installation services of electricity distribution and control equipment

#### **II.2.3. Place of performance**

NUTS code: NO011 Oslo

Main site or place of performance: Oset VBA

#### **II.2.4. Description of the procurement**

VAV owns high voltage installations that are connected to the water treatment facility at Oset. The type of high voltage installations at Oset must be inspected in accordance with the Act on the Inspection of Electrical Installations and Electrical Equipment (the Electricity Inspection Act). VAV is the owner of the actual installation, whilst Hafslund owns the concession that the installation was constructed under. The network company (Hafslund) is, pursuant to the Electricity Inspection Act, obliged to have the electrical installations inspected within its supply area and VAV can, as the owner of the installation, contract a tenderer to take on the responsibility for operation and maintenance.

VAV would like to enter into a contract with a tenderer who can take on responsibility for the operation and maintenance of the high voltage installations.

See the requirement specifications (annex 1) for further details on the assignment.

#### **II.2.5. Award criteria**

Quality criterion - Name: Quality / Weighting: 40

Price - Weighting: 60

#### **II.2.11. Information about options**

Options: yes

Description of options:

The contract will be valid for 2 years from the date it is signed, with an option for the contracting authority to extend the contractual relationship for a further 2+2+2 years on unchanged terms.

#### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds: no

#### **II.2.14. Additional information**
