II.2.4. Description of the procurement

Formulate decision basis that, amongst other things includes reviews in accordance with the review instructions, socio-economic analyses, ripple effects, and carrying out projects in accordance with the government's project model, including:

* Small and large reviews in accordance with the review instructions

* Formulation of KVU in accordance with the government's project model

* Carrying out preliminary projects and formulation of central steering documents in accordance with the government's project model

*Socio-economic analyses, ripple effect analyses, etc.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 105 000 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 24

This contract is subject to renewal: yes

Description of renewals:

2 + 1 + 1 + 1 year.

II.2.9. Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 3
Objective criteria for choosing the limited number of candidates:

If there are more than 3 tenderers that fulfil the minimum qualification requirements, the contracting authority will rank the tenderers according to the following selection criteria:

* A description of the tenderer's personnel that the tenderer has at their disposal to fulfil the contract, regardless of whether they belong to the company or not, weighted 40%.

* Documentation of the ability to process and save classified information at the required classification level, weighted 10 %.

* The reference assignments' relevance in light of the contracting authority's needs, weighted 50%.

The contracting authority uses a model for the selection of prequalified tenderers where points are awarded for each of the criteria in points a-c above. A scale from 0-6 is used, with 6 points being the best. The points that are given for each criterion will be multiplied with the criterion's stated relative weight. The weighted points will be added up and the up to 3 tenderers with the highest total points will be prequalified in the contest.

The same criteria will be used for the selection for both sub-contracts.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

II.2. Description

II.2.1. Title

Sub-contract 2: Carrying out planning and building processes and impact assessments

Lot No: 2

II.2.2.

Additional CPV code(s)

45111250 Ground investigation work, 71000000 Architectural, construction, engineering and inspection services, 71240000 Architectural, engineering and planning services, 71241000 Feasibility study, advisory service, analysis, 71248000 Supervision of project and documentation, 71300000 Engineering services, 71311000 Civil engineering consultancy services, 71311300 Infrastructure works consultancy services, 71313000 Environmental engineering consultancy services, 71315000 Building services, 71315400 Building-inspection services, 71314000 Energy and related services, 71317210 Health and safety consultancy services, 71318000 Advisory and consultative engineering services, 71330000 Miscellaneous engineering services, 71332000 Geotechnical engineering services, 71335000 Engineering studies, 71350000 Engineering-related scientific and technical services, 71351000 Geological, geophysical and other scientific prospecting services, 71500000 Construction-related services, 71600000 Technical testing, analysis and consultancy services, 73000000 Research and development services and related consultancy services, 75000000 Administration, defence and social security services, 79311400 Economic research services, 79311410 Economic impact assessment, 90700000 Environmental services

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

1. Tenderers must be registered in a company register, professional register or a trade register in the country where the tenderer is established.

Documentation requirement:

Norwegian tenderers: Company registration certificate

Foreign tenderers - confirmation that the tenderer is registered in a trade register or company register in accordance with the law in the country where the tenderer is established.

2. Tenderers must have a satisfactory quality assurance systems in their company.

Documentation requirement: Tenderers must submit documentation of ISO 9001 or equivalent quality assurance systems. If a tenderer is not certified, the tenderer can document the requirement by submitting an overview of the table of contents for the quality assurance systems.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tenderers must have sufficient economic and financial capacity to carry out the assignment /contract.

Documentation requirement:

Credit rating based on the most recent accounting figures. The rating must be carried out by a credit rating company with a licence to conduct this service.

The contracting authority can obtain further credit ratings or other financial information such as, but not limited to, the annual accounts including notes, the board's annual reports and the auditor's reports.

Minimum level(s) of standards possibly required:

A creditworthiness of A is required to be eligible for this competition. If other credit ratings are used, the company shall have the rating credit worthy.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

1. Tenderers must have experience from assignments of relevant nature, scope and complexity for each sub-contract. It is the tenderer's responsibility to confirm relevance through the description.
2. Tenderers must have adequate capacity to fulfil the contract.
3. Tenderers must have experience from processing and saving classified information at the required classification level.

Minimum level(s) of standards possibly required:

1. A description of the tenderer's 3 most relevant assignments in the last 5 years within the fields listed in sub-contract 1 and sub-contract 2. The description must include a statement of the tenderer's role in the project, and in what phases, as well as the assignment's scope, value, period, contracting authority, contact person at the contracting authority, and the current status of the project (ongoing/completed).
2. Tenderers must show that they have sufficient capacity to carry out the assignment by describing the organisation and staff that will be important for the assignment.
3. Documentation of the ability to process and save classified information at the required classification level.

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

When carrying out the assignment, the tenderer must save or produce classified information at CONFIDENTIAL level. A security contract must be signed with the tenderer. See Annex 4. The chosen tenderer must therefore be able to be cleared as a supplier at CONFIDENTIAL level. Personnel at the chosen tenderer who will carry out assignments where they will have access to security graded information must be able to be authorised and security cleared at CONFIDENTIAL level.
