2.1. Procedure

Title: Collecte, ramassage et transport des Algues Sargasses sur le littoral de la commune de Saint-François

Description: Les caractéristiques principales sont les suivantes : Le présent accord cadre a pour objectif la collecte, le ramassage, le transport des algues sargasses, sur le littoral de la commune de Saint-François, au moyen de techniques et de matériels adaptés aux contraintes du milieu marin et côtier. Le littoral et les espaces maritimes proches des côtes constituent des milieux sensibles et stratégiques, nécessitant une gestion spécifique, préventive et curative des échouages de sargasses, afin de limiter leur accumulation et leurs impacts. Les prestations attendues ne se limitent pas à un simple nettoyage des plages, mais relèvent d'une gestion globale et spécialisée des sargasses, incluant les interventions en mer (collecte avant échouage) et à terre, afin d'assurer : La limitation des échouages par des actions en mer, La salubrité et l'hygiène des espaces publics, La sécurité sanitaire des usagers, notamment face aux émanations de gaz (H₂S), La préservation des milieux naturels marins et littoraux, Le maintien de l'attractivité touristique du territoire. Les interventions attendues vont au-delà d'un ramassage ponctuel. Elles comprennent des actions régulières et coordonnées, adaptées à l'intensité des échouages, intégrant le repérage en mer et sur terre, la collecte, l'évacuation, le transport des sargasses, ainsi que le nettoyage des zones impactées. Les prestations attendues sont précisées dans le cahier des clauses techniques particulières (CCTP).

Procedure identifier: 3aa444b8-30d5-45ff-92b9-582d2c10a548

Internal identifier: N°STFR/BAD/CP/2026-07

Type of procedure: Open

The procedure is accelerated: no
