Duration end date: 31/08/2030

5.1.5. Value

Estimated value excluding VAT: 4 800 000,00 NOK

5.1.6. General information

Reserved participation:

Participation is not reserved.

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): no

5.1.9. Selection criteria

Sources of selection criteria: European Single Procurement Document (ESPD), Procurement Document

5.1.10. Award criteria

Criterion:

Type: Price

Name: Price

Description: Orientation: Tenderers shall fill in the attached price form in their cost calculations and submit it as an annex to the tender in Excel format. All fields in the attached price form marked with yellow shall be completed. Missing the price fields can cause difficulties in assessing the tender and the tender can then be rejected. The estimated volume in the contract period was given in the price form. The volume indications in the price form are only estimates and are given to form the basis for pricing and evaluating the tenders. The volumes are not binding for the customer, and deviation from the estimates does not form the basis for requirements from the tenderer. All prices are in NOK, excluding VAT, including all direct or indirect expenses and duties that could be incurred in connection with the delivery. Order fees and invoice fees are to be seen as expenses. The prices shall include all costs for the customer who is included in this competition. Costs that the tenderer knows will be incurred, but that are not specifically stated in the tender, will be seen as included in the stated costs. Evaluation: When assessing the price, a hybrid model with break point 1 will be used. The attached template for the evaluation model is attached. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 60

Criterion:

Type: Quality

Name: Quality

Description: Weighting: The award criteria is weighted 40%. The award criteria consists of the requirements in the requirement form that are marked with B. Altogether, we enter into ten sub-criteria. The sub-criteria are grouped and weighted as follows; B requirements points 1.7, 2.2,

2.3 and 2.17 are weighted together 50-70% of the award criteria quality. The sub-criteria within this group will be weighted almost identically. Other B requirements are weighted collectively 30-50% of the award criteria quality. The sub-criteria within this group will be weighted almost identically. Orientation: Under the award criteria quality, the contracting authority will assess the tenderer's response to all requirements marked B in the requirement form. The tenderer's solution description will be assessed on the basis of the documentation in the tender offer. The contracting authority will hold a demonstration of parts of the offered system. If the tenders provide a sufficient basis for assessment, the contracting authority reserves the right to fail to hold the demonstration. The objective of the demonstration is to give the contracting authority a better understanding of how the offered system functions in practice, as well as verifying information contained in the tender. See the requirement form for which points may be subject to demonstration in addition to written responses. The demonstration will be held digitally. Up to one hour will be put aside for the demonstration. Emphasis is put on the fact that the demonstration does not involve negotiations. It will not be possible to change or supplement the tender. The demonstration shall only contribute to clarifying and illustrating the solution as described in the tender offer. Evaluation: The award criteria will be assessed on the basis of the tenderer's description of the solution, including any demonstrations carried out. A procurement assessment will be made during the evaluation. For each sub-criteria (all the B-requirements), the best solution will be awarded 10 points and other solutions will be given points relative to the best solution. Scores achieved on each grouping of sub-criteria will be multiplied by the stipulated weight for the grouping. The weighted points will be summed to a combined point score for the award criteria. The total score will then be weighted with the weighting of the award criteria (40%).

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 40

5.1.11. Procurement documents

Deadline for requesting additional information: 28/04/2026 22:00:00 (UTC+00:00) Western European Time, GMT

Address of the procurement documents: <https://tendsign.com/doc.aspx?MeFormsNoticelId=87749>
