

United Kingdom-London: Emission measurement equipment

OJ S 159/2015 19/08/2015

Contract notice

Supplies

Directive 2004/18/EC

Section I: Contracting authority

I.1. Name and addresses

Official name: LondonWaste Ltd

Postal address: Eco Park, Advent Way

Town: London

Postal code: N18 3AG

Country: United Kingdom

For the attention of: Paul Stigter

E-mail: paul.stigter@londonwaste.co.uk

Telephone: +44 2088845553

Internet address(es):

General address of the contracting authority: <http://www.londonwaste.co.uk/>

Electronic access to information: <https://www.delta-esourcing.com/respond/444TR539JE>

Electronic submission of tenders and requests to participate: <https://www.delta-esourcing.com/respond/444TR539JE>

Additional information can be obtained from:

the abovementioned address

Specifications and additional documents (including documents for competitive dialogue and a dynamic purchasing system) can be obtained from:

the abovementioned address

Tenders or requests to participate must be submitted: the abovementioned address

I.2. Type of the contracting authority

Body governed by public law

I.3. Main activity

Environment

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Stack Emission Monitoring 2015.

II.1.2. Type of contract and place of performance or delivery

Supplies

Purchase

NUTS code UKI London

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

Emission measurement equipment. Environmental monitoring other than for construction. Air pollution monitoring or measurement services. LondonWaste Ltd (The Company) own and operate the EcoPark Energy centre located in Edmonton, London. The Energy Centre has five boilers burning approximately 500 000 t of both trade and domestic refuse per year in a continuous 24-hour operation, 7 days per week. The waste is delivered by road via the weighbridges/gate house by various types of transport. The waste is tipped and held in storage bunkers. Waste is fed by three 5 m³ grabbing cranes from the storage bunkers to the feed chutes of each boiler. Each of the water tube boilers is operated to achieve an evaporation rate of 40 tonnes per hour, at a steam pressure of 41.5 Bar and temperature of 415oC. Material which remains after the incineration process is transferred to the residual conveyors for onward transfer for further treatment and recycling.

The flue gas treatment plant consists of 4 streams each designed to treat up to 137 500 Nm³/h of flue gas. Each boiler may deliver up to 110 000 Nm³/hr of flue gas at a temperature of around 190oC.

The superheated steam from the boilers is used to drive four single cylinder, 17 stage turbines to generate electrical power at 11 kV. This power is used for the house load with the surplus exported to the National Grid via two step-up 11/33 kV transformers. The power exported to the Grid averages 32 MWh.

This specification is for the supply and installation of a brand new stack emission monitoring system that is MCERTS accredited for use in a waste incineration plant and able to comply with the Industrial Emissions Directive (IED). The procurement also includes testing, installation and commissioning of the system by the successful supplier. Provision of a comprehensive maintenance contract to ensure the system is maintained and working continuously is to be included.

All communication must be directed via the Delta e-sourcing portal. You will need to register as a supplier on Delta which is free and takes less than 10 minutes.

The PQQ Access Code is 444TR539JE. You will be required to complete the PQQ and submit it together with all relevant attachments before the stated deadline. Failure to comply will result in your organisation being excluded from the process. A copy of the Invitation to Tender is provided in excel format for viewing only at this stage. Only those suppliers that are shortlisted will be invited to participate in the tender process. Thank you for your co-operation.

II.1.6. CPV code(s)

38433200 Emission measurement equipment, 90711500 Environmental monitoring other than for construction, 90731400 Air pollution monitoring or measurement services

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

Estimated value excluding VAT:
Range: between 300 000 and 500 000 GBP

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

N/A.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

N/A.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

N/A.

III.1.4. Contract performance conditions

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: As outlined in the Pre-Qualification Questionnaire (PQQ).

III.2.2. Economic and financial ability

List and brief description of conditions: As outlined in the Pre-Qualification Questionnaire.

III.2.3. Technical and professional ability

List and brief description of conditions:
As outlined in the Pre-Qualification Questionnaire.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

III.3.2. Information about staff responsible for the performance of the contract

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Accelerated restricted

Justification for the choice of accelerated procedure: Reduction in standard EU timescales permitted, based upon requirement classified as urgent. The current emission analyser equipment has reliability issues and spares have been difficult to source. Failure to comply with the Environment Agency and UK legislation may result in the plant being shut down.

IV.1.2. Information about the limits on the number of candidates to be invited

Envisaged minimum number 5

Objective criteria for choosing the limited number of candidates: As outlined in the Pre-Qualification Questionnaire.

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of Price is not the only award criterion and all criteria are stated only in the procurement documents

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

Stack Emission Monitoring 2015

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

Time limit for receipt of requests for documents or for accessing documents: 31.8.2015 - 12:00
Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

1.9.2015 - 12:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted

English.

IV.3.7. Minimum time frame during which the tenderer must maintain the tender

IV.3.8. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.3. Additional information
