I.2. Type of the contracting authority

Ministry or any other national or federal authority, including their regional or local subdivisions

I.3. Main activity

General public services

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

Tunnel improvements Sunnmøre — Tender 1 — E39 Moa- E39 Blindheim and E136 Hatlaås tunnels.

II.1.2. Type of contract and place of performance or delivery

Works

Design and execution

Main site or place of performance: Ålesund.

NUTS code NO053 Møre og Romsdal

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The work's nature and extent:

The work comprises the renovation of 3 tunnels that are located in Ålesund municipality.

— Moa tunnel (560 m). Annual daily traffic count approx. 11 000.

— Blindheim tunnel (840 m). Annual daily traffic count approx. 22 000.

— Hatlaås tunnel (314 m). Annual daily traffic count approx. 19 000.

See the tender documentation for further details.

Moa tunnel:

In Moa tunnel the work mainly consists of updating the electrical installations and safety equipment.

Blindheim tunnel:

In Blindheim tunnel the safety equipment shall be updated and a camera system connected to AID, based on radar, is to be assembled. In addition the safety equipment shall be updated and a camera system connected to AID, based on radar, is to be assembled. New railings shall be assembled at the tunnel openings. New transformers shall be assembled outside the tunnels in new technical buildings, with the feed of high voltage to them in cooperation with Mørenett.

Hatlaås tunnel:

The electrical installations shall be replaced in Hatlaås tunnel. Approx. 3 400 m² of existing PE foam without fire protection shall be taken down. The tunnel shall be cleaned and secured in accordance with the builder. New water and frost protection shall be assembled throughout the tunnel. Railings shall be assembled on the eastern side of the road line for the open air zone.

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

See the tender documentation.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

See the tender documentation.

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

See the tender documentation.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: Special conditions:

10.1 Working hours

The Moa and Blindheim tunnels:

The tunnels can be completely closed from 20:00 to 6:00 the following day. Open for traffic during the day.

Hatlaås tunnel:

Closed for traffic during the construction period. The contractor can carry out work in the tunnel 24 hours a day provided that approved shift and working hours schemes are in place.

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: 2. Tax Certificates:

Tax and VAT certificates, not older than 6 months, shall be enclosed with the tender.

Cf. the Public Procurement Regulations § 8-7, possibly § 17-14.

3. Working partnerships:

If the tenderer is a working partnership (supplier consortium), a declaration of joint and several liability to the builder and third-parties must be enclosed with the tender.

A report shall be given for the business form and the composition of the working partnership, including the participants' organisation numbers [Business Register Numbers].

Tenderers must make sure to substantiate how the competence requirements shall be met by the participants. Furthermore, each participating company in the working partnership shall provide such information about their company as required in the tender documentation.

Working partnerships will be assessed collectively for all eligibility requirements, except HSE and own equity. Each participant will be individually evaluated for HSE and equity.

III.2.2. Economic and financial ability

List and brief description of conditions: 4.3 Economic situation:

4.3.1 Equity. Solvency

Tenderers are required to have positive equity. If the tenderer is a working partnership (supplier group), the requirement applies to each of the participants.

Documentation requirement:

Documentation of equity is to be submitted the tender. Cf. chapter E2, point 4.3.1, form E2-4.3.1.

Documentation of any significant changes to the tenderer's equity and solvency compared to the last accounts audit must accompany the tender.

4.4 Feasibility

There will be an overall assessment of the requirements imposed under this criteria.

Implementation ability.

4.4.1 Tenderer's revenue

The tenderer's annual average turnover should be at least as large as the annual turnover the contract will generate.

Documentation requirement:

Documentation of turnover for the last 3 years should be submitted the tender. Cf. chapter E2, point 4.4.1, form E2-4.4.1.

III.2.3. Technical and professional ability

List and brief description of conditions:

4.4.2 Key personnel expertise

Technical and professional competency and relevant experience is required of the key personnel who will be engaged in this assignment.

As a minimum the following are seen as key persons for this assignment:

- Project Manager;
- Engineering Design Manager electro;
- Site Manager electro;
- Site Manager: buildings and construction.

Documentation requirement:

Competence and experience must be documented. Cf. chapter E2, point 4.4.2, form E2-4.4.2.

4.1 Experience

Tenderers who are recently established companies and consequently, cannot submit references, must be particularly careful to demonstrate that they have the ability to carry out the contract.

The tenderer shall report their company formation and employee expertise. Planned organisation for the assignment and CVs for the key personnel in the project organisation are extremely important. This also applies for companies that merge or are acquired by another company during the tendering process.

4.1.1 Experience from similar works Reference projects:

The tenderer shall have experience from work of the same nature and degree of difficulty.

Documentation requirement:

Information on such shall be attached with the tender. Cf. chapter E2, point 4.1.1, form E2-4.1.1.

Where the tenderer is dependent on a sub contractor in order to be qualified, the tenderer must document for the contracting authority that the tenderer will have authority over the required resources. This can be documented by the tenderer presenting a mutual statement of liability, or equivalent.

4.1.2 Contractors experiences. Reference projects

NPRA and other builders' experiences with the tenderer will be appraised

The tenderer is required to show references to relevant contracts that they themselves have executed in a satisfactory manner.

Conditions which will be evaluated are related to, a.:

- documentation of completed quality;
- fulfilment of contracts;
- compliance with provisions and procedures for HSE;
- compliance with provisions for wages and working conditions;
- observance of deadlines;
- follow up during the warranty/claims period;
- collaborative ability.

Documentation requirement:

Information about contracts the tenderer has had in the last few years, with names of references at the contracting authority, shall accompany the tender. Cf. chapter E2, point 4.1.2, form E2-4.1.2.

Any assessment forms from previously completed contracts can also be included in the basis for the evaluation.

4.2 HSE

4.2.1 Systematic HSE work:

Tenderers shall have a system and routines that ensure that the HSE work is operated in a systematic manner in accordance with the internal control regulations, cf. the confirmation in the E5 tender form.

4.2.2 Accident frequency (H1-value):

If the tenderer is a working partnership (supplier group), the requirements apply for each of the participants.

The H1-value is defined as the number of work accidents with absence in relation to the hours worked multiplied by 106.

The average of the H1-value for the last 3 years should be lower than 10, cf. chapter E2, point 4.2.1, form E2-4.2.1.

If the H1-value is higher than this, an account shall be given of the developing trend for the H1-

value and possibly the F-value, which will express the severity of any high H1-value. Furthermore, a report on whether improvement measures are implemented, and if so, also documentation on the effectiveness of these, should accompany the tender.

4.4.3 Organisation

The organisation of the execution of the contract is required to be sufficiently staffed and the tenderer shall have the capacity and ability to deal with unforeseen circumstances during the contract period.

Documentation requirement:

A statement of how the tenderer will organise the execution of the contract.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.1.2. Information about the limits on the number of candidates to be invited

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

IV.2. Award criteria

IV.2.1. Award criteria

Lowest price

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

16/86063

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

14.10.2016 - 12:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted
Other: Norwegian.

IV.3.7. Minimum time frame during which the tenderer must maintain the tender
until: 16.12.2016

IV.3.8. Conditions for opening of tenders
