the abovementioned address

Tenders or requests to participate must be submitted: the abovementioned address**I.2. Type of the contracting authority**

Regional or local agency/office

I.3. Main activity

Recreation, culture and religion

I.4. Contract award on behalf of other contracting authorities

The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

Module based climbing wall.

II.1.2. Type of contract and place of performance or delivery

Works

Realisation, by whatever means of work, corresponding to the requirements specified by the contracting authorities

Main site or place of performance: Stavanger.

NUTS code NO Norge

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

A module based climbing wall shall be built in Sørmarka Arena.

II.1.6. CPV code(s)

92000000 Recreational, cultural and sporting services

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

Requirement of climbing wall on mezzanine in SA:

1. General:

a. Width: 26m;

b. Height: 11m;

c. Maximum depth: See description at the end;

d. Safety zone from outermost lowering point;

e. The wall shall be constructed in accordance with EN 12572-1;

f. The wall shall consist of 4 vertically divided sections:

i. A section of 95 degrees slab;

ii. A section of 90 degrees vertical;

iii. A section of 85 degrees overhang;

iv. 1 section should be DWS wall (see drawing attached).

2. DWS section:

a. It shall function as a fully fledged indoor wall at SA when it is not being used for DWS, and must therefore have anchors and between anchors;

b. The wall boards: impregnated/surface treated on both sides;

c. Steel: anti-corrosive treatment, for example galvanised;

d. The wall's own weight should be driven down in, and anchored to the ground when used as a DWS wall. The crane shall function as support and stabilisation;

e. There must be a platform at the top so that people can stand securely on the top. There must also be a ladder on the back side all the way down to the ground level;

f. Lowest possible weight;

g. Simplest possible assembly/disassembly;

h. Must take into account transport in regard to the size of the modules:

i. 4 metre overhanging when used as a DWS wall;

j. Minimum 4 to 5 lines with top tether, hangers and short slings with carabin.

3. Climbing Engineering:

a. Climbing grips should be included. Brand and materials should be described. Min. 2 000 units;

b. Minimum of 18 lines with hangers and short slings with carabin;

- c. 1 top tether per line, shall consists of 2 fastening points;
- d. Route setting shall be included. Min. 1 route per line. Entrance to the back side of the wall should be on the left (rear of the slab wall) side;
- e. All bolts and hanger must be non-corrosive.

4. Design:

- a. Large climbing surfaces and some angle deflections (non #D effect other than in the transition between the walls);
- b. No 90 degree corners in the transition between the walls;
- c. Other;
- d. Transport of the wall should be included in the price;
- e. Board/lodgings and travel for all persons that shall assemble the wall should be included in the price;
- f. References should be enclosed. Including references for the outdoor wall.

There is an area available for a wall that is 26 m wide and 11 m high. A 1 m safety distance has been calculated to the cable tray over the wall and the necessary distance to the electro cabinet in the left corner of the wall (when seen from in front of the mezzanine). Due to the platform used on the mezzanine, the available depth of the climbing wall is max. 1,68 metres from the outer wall (1,30 metres from the steel structure/upright). The largest electro cabinet behind the wall is constructed with an open door 1,48 metres from the lowest point on the outer wall and outwards. Therefore there must be a light opening of at least 1,50 metres behind the climbing wall where the cabinets are located. Measurements and angles on the wall: Length x height = 26 metres (h) x 11 metres (w). Depth = max. 1,68 metres from the existing wall (1,3 metres from the steel structure/upright). The slab wall (95 degrees) shall be built further out in the room, without conflicting with the platform. The wall should be divided up into the following widths and angles (set from the right to the left): Wall 1 — DWS wall = 6 m; Wall 2 — 85 degrees = 7,75 m; Wall 3 — 90 degrees = 7,75 m; Wall 4 — 95 degrees = 4,5 m. Estimated value excluding VAT:

Range: between 1 000 000 and 1 400 000 NOK

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

15 % of the total contract sum will be paid at the start of the construction for the project;

60 % of the total contract sum will be paid upon completion of the climbing wall;

15 % of the total contract sum will be paid 1 month after completion of the climbing wall;

10 % of the total contract sum will be paid 3 months after completion of the climbing wall.

The climbing wall is required to have the necessary authorisations and certifications and in accordance with Norwegian laws and regulations, so that the wall can be immediately used after its construction.

III.1.2.

Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

The contracting authority requires tenderers who wish to participate in the competition to demonstrate that they are registered in a trade index or other enterprise register as prescribed in the legislation in the country in which they are established. Documentation of this (e.g. a Business Registration Certificate from the Brønnøysund Register Centre) shall be enclosed with the tender. The enclosed documentation shall not be older than 6 months from the deadline for receipt of tenders.

III.2.2. Economic and financial ability

List and brief description of conditions: Tenderers must have the financial ability to carry out the contract;

Tenderers shall achieve a minimum rating of 'creditworthy';

Tenderers are expected to have familiarised himself with registered information on the company and by submission of the tender accepts that the information will be obtained and form the basis of the assessment of the tenderer's financial situation.

If the tenderer knows that the requirement regarding the financial capacity to carry out the contract cannot be met via the credit rating as specified above, the tenderer can submit other documentation with the tender that confirms a satisfactory financial capacity.

III.2.3. Technical and professional ability

List and brief description of conditions:

Experience is required from contracts for equivalent public assignments. Documentation of excellent implementation ability is required.

To document this, a list of key deliveries or services provided during the past 3 years must be enclosed. This shall contain information concerning:

- Brief description of the assignment;
- Size or value of the deliveries;
- Time (contract period);
- Name of and a brief description of the customers;
- Telephone number, e-mail address and name of contact persons at the customers.

Relevant customers from the list may be contacted.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Open

IV.1.2. Information about the limits on the number of candidates to be invited

IV.1.3. Information about reduction of the number of solutions or tenders during negotiation or dialogue

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of Criteria below

1. Price. Weighting 60
2. Quality. Weighting 20
3. Design of wall. Weighting 20

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting authority

022

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents or descriptive document

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

27.9.2016 - 12:00

IV.3.5. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.3.6. Languages in which tenders or requests to participate may be submitted

English.
Other: Norwegian.

IV.3.7. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 3 (from the date stated for receipt of tender)

IV.3.8. Conditions for opening of tenders

Persons authorised to be present at the opening of tenders: no

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

20.8.2016
