Title: F02 Pre-engineering, contract amendment

Description: PROJECT OVERVIEW: The Factory 02 (F02) project involves the development of a facility on a 7.5-hectare site in the Nordics, with approximately 14,000 m² to be built in Phase 1. The site will be developed in two phases, each featuring six bioreactors. The full project cycle is estimated to take 47 months. OBJECTIVES AND STRUCTURE: The project follows a Front-End Loading (FEL) process to thoroughly understand the project and reduce changes during execution. This will take 12 months from January to December 2025, covering two key phases: alternative assessment and process design freeze, with the end goal of an advanced conceptual design package. SCOPE AND PROJECT DELIVERABLES: An advanced conceptual design package, cost estimate, and integrated project plans that cover permitting, engineering, procurement, and construction schedules.

Date of the conclusion of the contract: 29/01/2025

7. Modification

7.1. Modification

Identifier of the previous contract award notice: 706472-2025

Identifier of the modified contract: 2025-030618 (CON-0001)

Reason for modification: Need for additional works, services or supplies by the original contractor.

Description: The contracting entity is making a contract amendment because it requires additional services related to the subject of the procurement, and changing the supplier during the ongoing service provision is not possible. The additional work include design and technical support services from the current supplier to support another supplier responsible for preparing the environmental permit application. The current supplier has the most comprehensive knowledge of the facility's processes, layout, dimensions, and technical baseline data forming the basis of the environmental permit documentation. Therefore, it is technically necessary and most efficient that these services are provided by the supplier who originally prepared the design material. Replacing the supplier would jeopardize the continuity of service delivery and result in significant additional costs for the contracting entity.

7.1.1. Change

Description of modifications: The contract is amended to allow the contracting entity to procure additional work from the supplier, resulting in an increase in the overall contract value.

However, the value of the contract amendment does not exceed 50% of the original contract value.
