Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

70-BYM-2022 - Framework agreement for instruments for measuring air quality in Oslo - 2nd notice

Reference number: 22/26500

II.1.2. Main CPV code

38300000 Measuring instruments

II.1.3. Type of contract

Supplies

II.1.4. Short description

BYM is responsible for working for better air quality. The agency is the delegated pollution authority in Oslo Municipality. In addition BYM is responsible for the municipal road network in Oslo. The agency measures the air quality in accordance with the pollution regulations, chapter 7 on local air quality. BYM also has environmental monitoring assignments that are connected to environmental health protection.

Measurements of local air pollution are a legal requirement in Oslo. This applies to both general measurements of air pollution in towns and with stricter requirements due to exceeding assessment thresholds for local air quality. The pollution regulations (cf. the Pollution Act) define under which limits the local air quality measurements must be made. The pollution regulations follow the superior EU directives on local air pollution (EU Directives 2008/50 and 2004/107).

II.1.5. Estimated total value

Value excluding VAT: 6 000 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

38410000 Metering instruments, 90731000 Services related to air pollution, 90731100 Air quality management, 90731300 Air pollution protection services, 90731400 Air pollution monitoring or measurement services, 90731800 Airborne particle monitoring

II.2.3. Place of performance

NUTS code: NO081 Oslo

II.2.4. Description of the procurement

BYM is responsible for working for better air quality. The agency is the delegated pollution authority in Oslo Municipality. In addition BYM is responsible for the municipal road network in Oslo. The agency carries out measurements of the air quality as defined in the pollution regulations, chapter 7 on local air quality. BYM also has environmental monitoring assignments that are connected to environmental health protection.

Measurements of local air pollution are a legal requirement in Oslo. This applies to both general measurements of air pollution in towns and with stricter requirements due to exceeding assessment thresholds for local air quality. The pollution regulations (cf. the Pollution Act) define under which limits the local air quality measurements must be made. The pollution regulations follow the superior EU directives on local air pollution (EU Directives 2008/50 and 2004/107).

Oslo Municipality, c/o BYM, owns ten measuring stations for local air quality. Since 2022, BYM has also taken over the operation of the Norwegian Public Roads Administration's six measuring stations that are located in Oslo. This framework agreement will ensure that the official measurements of air pollution in Oslo and associated data meets the quality requirements in the pollution regulations. The framework agreement will be non-exclusive.

BYM will first procure three instruments:

- One SO₂-monitor
- One NO_x-monitor

- One PM-monitor

See the requirements specification for further details on the instruments. The contracting authority would like these instruments to be operative as soon as possible. BYM requests that tenderers state the delivery date for these three instruments together with the tender.

Further needs will partly depend on the lifetime of the existing instruments and any new requirements that can arise in the contract period. The need for new instruments can be between NOK 500,000 and NOK 1,000,000 a year. Depending on the budget limits, the numbers can be higher or lower than this, but the estimated total need for the procurement of air measuring apparatuses can be up to NOK 6 million over a four-year period, given the expected future price growth and allowances for unforeseen events.

Repairs, service, any adjustments, etc., in the guarantee period must be free of charge.

Regular operation of measuring equipment that is owned by the contracting authority will be done by another supplier. See Annex 3 – Requirements Specification for further information.

This procurement was published in autumn 2022, but had to be cancelled as the received tenders did not meet the social qualification requirements, cf. the tender documentation, point 3.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 6 000 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 48

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

The contract will commence from when it is signed. The contract has a duration of two years. The contracting authority will have an option to extend the contract for a further 1+1 year on unchanged terms.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

See point 3 of the tender documentation.

III.1.2. Economic and financial standing

List and brief description of selection criteria:
See point 3 of the tender documentation.

III.1.3. Technical and professional ability

List and brief description of selection criteria:
See point 3 of the tender documentation.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement
Framework agreement with a single operator

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 15/06/2023 Local time: 12:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

Norwegian

IV.2.7. Conditions for opening of tenders

Date: 15/06/2023 Local time: 12:00

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Oslo Tingrett
Postal address: Postboks 2106 Vika
Town: Oslo
Postal code: 0125
Country: Norway
