Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - protection of exclusive rights, including intellectual property rights

Explanation:

The contract shall be entered into without a prior tender notice, in accordance with the Public Procurement Law and Regulations § 13-4, first paragraph letter b, alternatively n° 3 and the second paragraph. It has been decided that a pilot project shall be carried out for the Norwegian Police service regarding the implementation of a new forcible means in the form of electroshock weapons (ESV). The pilot project shall identify whether or not the electroshock weapons (ESV) are suitable for the future Norwegian Police service. A police professional evaluation has been conducted regarding the need for two-shot electroshock weapons (ESV). Market surveys show that only one manufacturer of electroshock weapons (ESV) with capacity

for firing two shots and this selected supplier has the exclusive right to deliver these weapons in Norway. In practice this means that it is not possible to create a competition for the procurement. A tender notice thereof will consequently not improve the competition nor improve this concrete procurement. The public procurement law and regulations regarding efficient use of the society's resources therefore justify not conducting a prior tender contest.
