VAT, including all direct or indirect expenses and duties that could be incurred in connection with the delivery. Order fees and invoice fees are to be seen as expenses. The prices shall include all costs for the customer who is included in this competition. Costs that the tenderer knows will be incurred, but that are not specifically stated in the tender, will be seen as included in the stated costs. Evaluation: The total sum from the price form will form the basis of the price evaluation. When assessing the price, a hybrid model with break point 1 will be used. We therefore depend on having a workshop with maximum response time for the started diagnosis of vehicles, as well as maximum response times for parts. NB! Under this award criteria, the stated delivery times and response times shall start when the customer does not have a service and repair contract as this is an option and the customer may not use the option. Tenderers are requested to describe the following (this point is weighted 30% of the total 40%). Wearing and spare parts means no service parts. Service parts means: filters and oil. Wearing and spare parts means other parts such as: Brake parts, air cushions, sensors (all types). Tenderers are requested to describe the following (this point is weighted 10% of the total 40 %). We would like the shortest

Scores achieved on each of the sub-criteria will be multiplied by interrelated weighting and added together. The tenderer's total points for this award criteria is weighted with the award criteria's weighting percentage.
